

Works Notice

November 2021

Trackside signalling work in November

Construction work is well advanced along the Shorncliffe Line to deliver Brisbane's new railway signalling system as part of the Cross River Rail Project.

Details of work

During **November**, construction work will continue in the rail corridor at sites between **Bindha and Shorncliffe stations**. Activities along the rail corridor will include drilling, excavation, concreting, cable and fence installation, and installing and modifying on-track and trackside signalling equipment. Work will also continue on the radio mast near Sandgate station.

The majority of works will occur between 6:00am and 6:00pm, Monday to Friday.

Some activities will be undertaken outside normal construction hours, as per the table below (weather permitting).

Date and hours	Location	Type of work
Between 2.00am Saturday 20 and 2.00am Monday 22 November	Shorncliffe to Banyo	Installation of on-track signalling equipment, pit and cable installation.
	Deagon	Excavation of pits. Smith Street will be closed between 5.00am Saturday 20 November and 5.00pm Sunday 21 November (See map below). Traffic control will be in place in Adams Street with part of the Deagon station car park also closed during this time. See map below.

Deagon station changes: Saturday 20 to Sunday 21 November

What to expect if you're a rail customer

Cross River Rail will transform how we travel to, from, and through Brisbane in the future. But building Cross River Rail means changes to travel and transport services during construction. **Plan your journey by downloading the MyTransLink app, visit translink.com.au, or call 13 12 30.**

We thank the community and rail customers for their patience as we build Cross River Rail.

North Boondall station car park changes

Due to ongoing construction works, an area of the Peacock Street car park will be temporarily closed from Monday 8 November 2021 until early 2022.

Deagon station car park changes

To facilitate works near Deagon station, a section of the car park will be temporarily closed from Friday 3 December to Friday 17 December. Further details will be provided in advance of the closure.

What to expect if you live alongside the rail corridor

Residents along the rail corridor may see and hear dust and noise associated with the use of machinery and equipment (including drilling machines, excavators, concrete trucks, and vacuum trucks), and mobile lighting towers in work areas during night works.

To minimise impacts environmental controls will manage noise and dust (including noise minimisation practices after hours), and lighting towers will be directed away from residential properties, wherever practical.
