YOUR GUIDE TO THE  
Intercostal Catheter  
Insertion eLearning  
Course

ONLINE

## Intercostal Catheter Insertion

Learn knowledge and skills on the insertion of a large bore intercostal catheter through an immersive 360 degree demonstration of an Emergency Specialist inserting an ICC, and an augmented reality demonstration of the procedure.

Included in your registration is an education pack containing an Intercostal Catheter Insertion Training Kit to practice your skills, and instructions to access the augmented reality demonstration.

The following equipment is required to practice your skills, but is not included in the education pack: scalpel, Intercostal Catheter and Kelly's forceps.
