OTHER IMPORTANT INFORMATION

TANZANIA AIRPORT AUTHORITY SECURITY LEVY

The Tanzania Airport Authority (TAA) has introduced a security levy to be imposed on passengers boarding aircraft at domestic and international airports within Tanzania.

The new fee of TZS 5,000 (US\$2) for those boarding domestic flights and US\$5 for those on international flights will be used for enhancement of airport security through installation of high-tech equipment and safety services, including perimeter fences and state-of-the-art scanning machines to improve detection. Over time, it should hopefully reduce the occasions for those often intrusive body searches on travellers. The security levy will affect both foreign and domestic travellers booked with airlines flying in and out of Tanzania, and will take effect from the 1st November 2018.

TOUR GUIDE VS. TOUR LEADER

Tour Guide:

Often locals with intimate knowledge of an area, its culture, and history. Their role entails providing commentary, routing the tour, and seeing that people have a good time. They are a licensed, qualified expert who supplies specific information on history, art, architecture and culture of the city/village/attraction in which he or she is guiding the tour. The guide meets the group at the required place and leaves the group at the end of the tour, they do not travel with the group.

Tour Leader:

An experienced person tasked with ensuring the smooth operation of tours, as well as providing practical support to passengers throughout the whole trip. Their role primarily includes assisting with accommodation, transportation between locations, and communication with tour guides in each stop. A tour leader may provide general guidance around a city or village, and offer information on the place visited on the bus, however they are not required to have specific knowledge on art,

architecture, or history. They are not allowed to provide a guided tour or commentary of a city/village/attraction once there and if caught doing so, can be fined.

Please note: Tour leaders/guides are not a standard inclusion in all travel offers. Tour leaders/guides will only be made available when particularly required to enhance the experience of the destination featured.

CLIMATE & AVERAGE TEMPERATURES

Kenya:

The climate of Kenya varies by location, from mostly cool every day, to always warm/hot. The interior of Kenya has an arid climate is nearly devoid of rainfall, and temperature swings widely according to the general time of the day/night. For many areas of Kenya, the daytime temperature rises about 12°C almost every day.

Tanzania:

From July to August, Tanzania's weather is generally the coolest, the sunniest and the driest. June is a good month almost everywhere, but in the north-east the long rains can linger on until this month. September is also a good month, but at lower elevations the days can be hot. In October, the season of the short rains begins in the north, though in the first half of the month there is usually little rain, however, it can get hot at low altitudes.

Zanzibar:

Just south of the equator, Zanzibar's weather pattern follows that of Tanzania very closely although always tends to be a little more humid and occasional rain in the dry season is less uncommon than in the heart of the mainland Tanzania. Generally, the main rainy season, or the 'long rains', last during March, April and May. The humidity is high and daily temperatures reach the low-mid 30's. The long dry season, when rainfall is fairly unusual, lasts throughout June, July, August, September and October. Temperatures vary hugely with altitude and location, but it's usually fine, clear sky and sunny weather it's a great time to visit Zanzibar. During November and December there's another rainy season:

IMPORTANT INFORMATION

the 'short rains'. These are much lighter than the main rains and less reliable.
