

URGENT MEDICINE RECALL

FUSION HAIR TONIC

Oral Capsules – All BATCHES

ALL PACK SIZES

AUST L: 183418, 300605

Following a Therapeutic Goods Administration (TGA) safety investigation of products containing the ingredient *Fallopia multiflora* commonly used for hair health, Global Therapeutics Pty Ltd is recalling all batches of **Fusion Hair Tonic oral capsules**.

The TGA has received reports of liver injury in consumers taking this product, with some cases requiring hospitalisation. To date, all cases reported in Australia have either improved or resolved after discontinuation of the product. While the risk of drug induced liver injury is low, it has the potential to be life-threatening.

In the interests of our consumers' health and safety, we ask that if you have a bottle of **Fusion Hair Tonic capsules** that you stop using the product immediately.

Consumers should return unused products to the place of purchase for a refund.

Global Therapeutics also seeks to advise that this product has been cancelled from the Australian Register of Therapeutic Goods (ARTG) and there will be no future supply.

No other Fusion Health products are affected.

CUSTOMER SERVICE 1800 550 103

Global Therapeutics Pty Ltd sincerely regrets any inconvenience to our customers.
