

BURGMANN ANGLICAN SCHOOL PROPOSAL

Burgmann has identified the highly frustrating and unsafe traffic conditions in the immediate area and is proposing to assist by constructing and gifting a public asset to the ACT Government.

Burgmann is in a position to act and is seeking to create a high-quality transport network which supports improved vehicle and pedestrian movements. Burgmann is taking a proactive role and is responding to the current and future needs of the school and Gungahlin community.

School Drop Off Area

QUICK FACTS

- 162 car spaces
- 62 street trees
- Staged approach
- Improved pedestrian safety
- Pick-up/drop-off zone for buses and parents
- Improved accessibility
- Public asset

- Lighting

School Drop Off Area

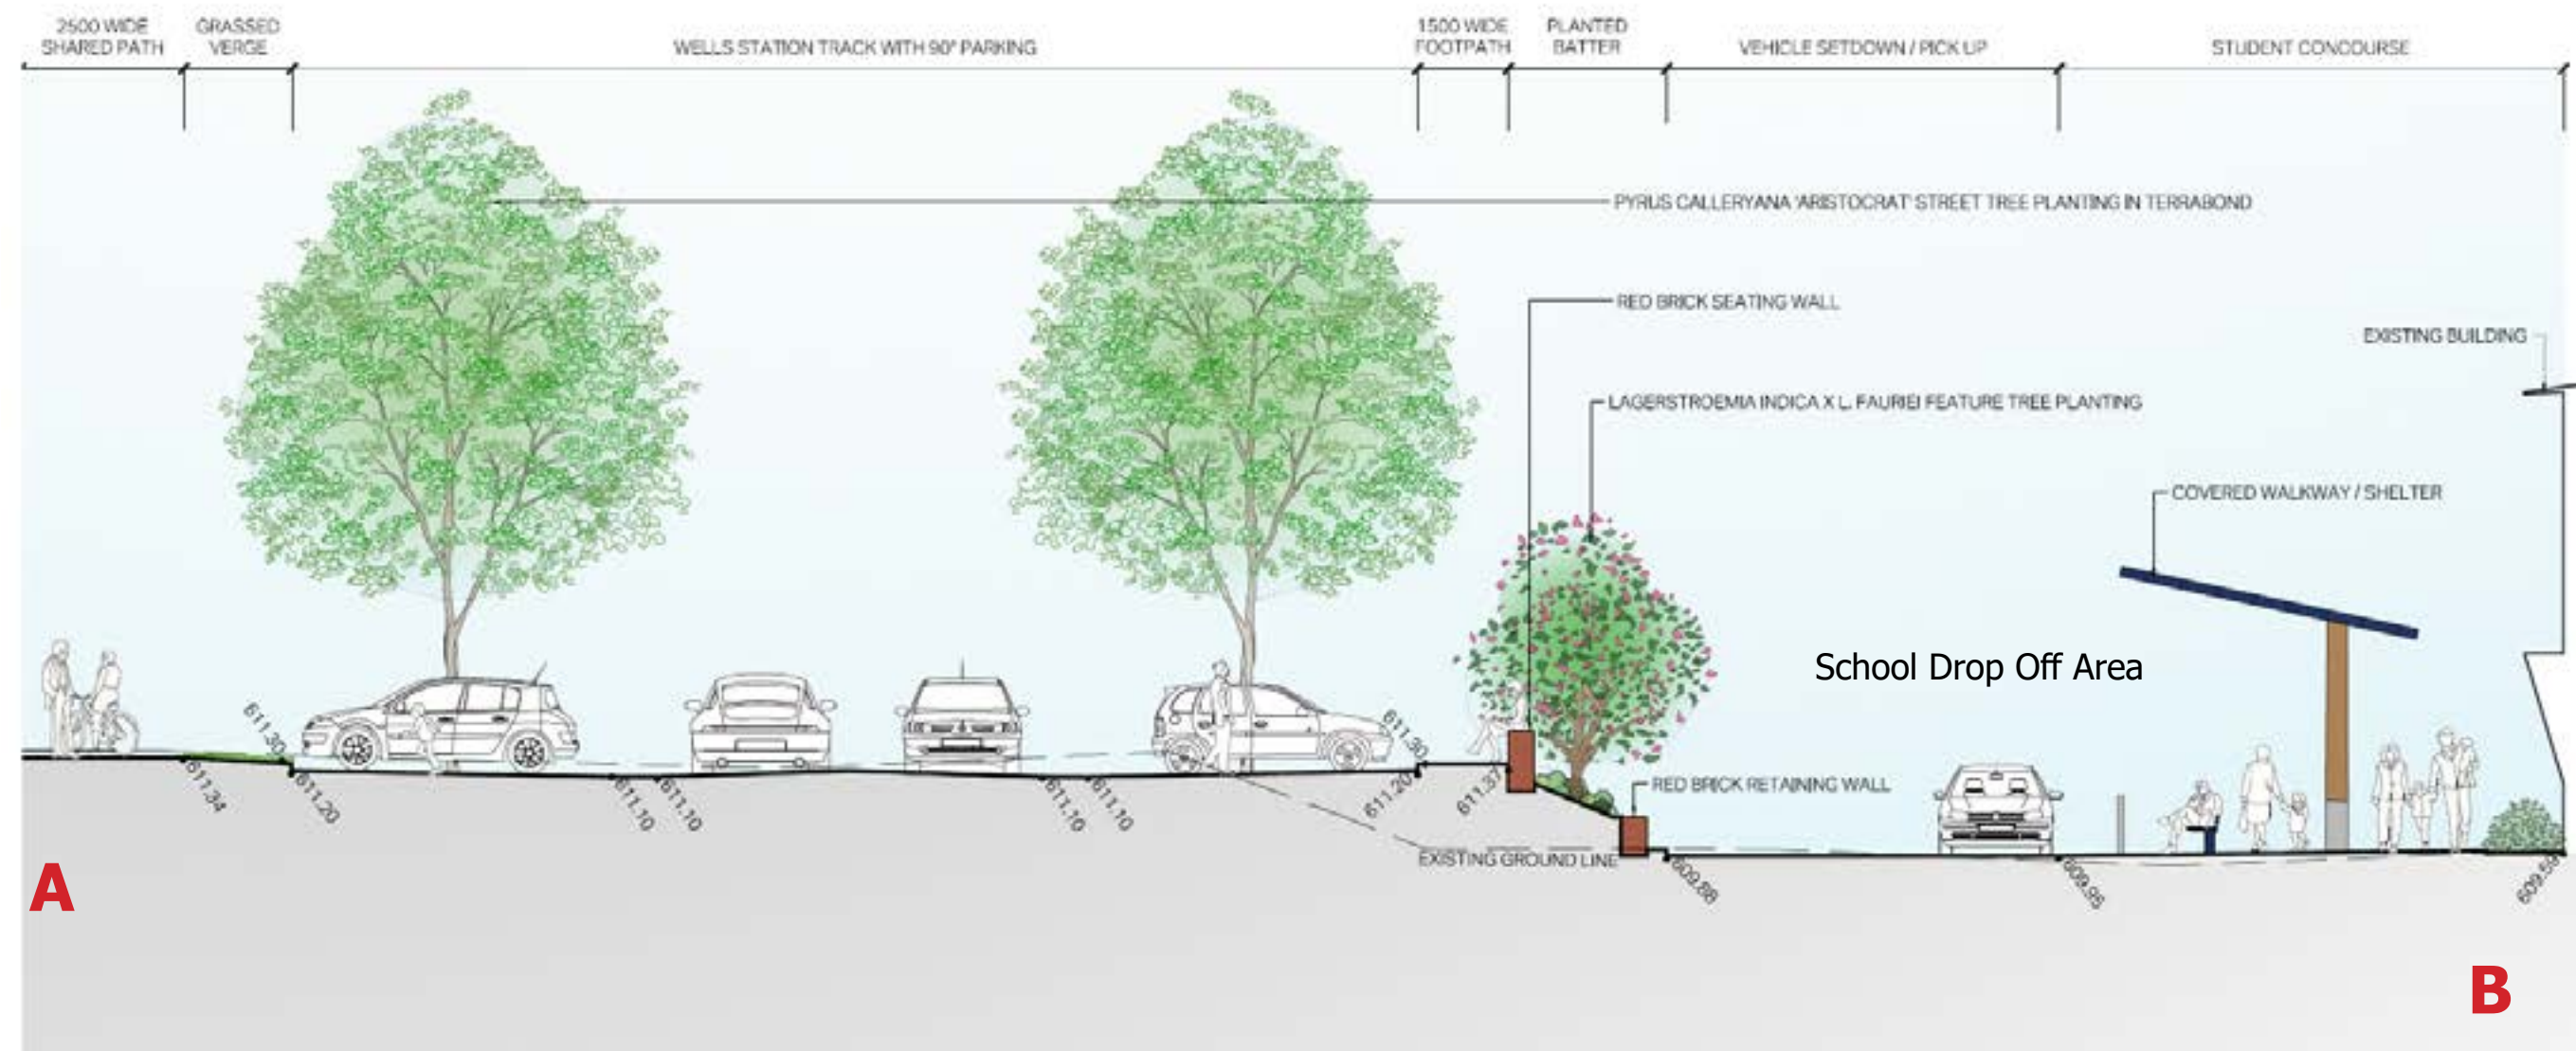

The proposal is seeking to improve the overall accessibility and safety for students and residents. This proposal will better manage vehicles and enhance the amenity and heritage values of the area. The scope of work includes:

- 162 car spaces
- High quality landscaping
- Heritage interpretation and signage for Well Station Track
- New connection to The Valley Ave
- Improved pedestrian access
- Active travel link for pedestrians and cyclists to the town centre
- Landscaped school drop off area

SITE PLAN

SECTION

CONSULTATION

Why?

We want to hear your comments and opinions on the proposed works between Delma View and the school.

From here...

This is the introduction of the proposal. Everything we hear is collected and collated within a report submitted to the ACT Government.

When

Expected commencement in late 2019 in a staged approach.

.....
