However the insurance policy requires, when the laptop is not being used;

- on-site, it must be stored **ONLY** in designated locations which include locked classrooms, secure lockers or the ICT Support office
- OR off-site, adequate precautions must be taken including keeping secure at home or in the boot of the car hidden from view

otherwise there is NO insurance cover and students/parents will be liable for the **full cost of repair or replacement** of the laptop if it is damaged, lost or stolen. (NB: A laptop left on top of lockers, on the oval, on a bus or outside a classroom is NOT covered).

A student found to have willfully or carelessly damaged their laptop/carry bag or another student's laptop/carry bag will be liable for the full cost of repair. Students are NOT to attempt any repairs as this will be deemed to be willful damage. For further specific details refer to policy conditions.

11.3 Notification

If stolen, a police report is required to be provided prior to replacement procedures being undertaken. If lost or damaged, the student must report it to the Calvary Christian College ICT Support as soon as possible and complete necessary paperwork prior to repairs being undertaken.

11.4 Costs

The cost of the programme is an annual all inclusive payment (note exceptions) and will be itemised separately on the student's tuition fee statements. This fee is payable by the Parent/Guardian. This cost is additional to tuition fees. Payment is not a lump sum and will be collected through normal tuition fee payment arrangements.

The cost of this programme is \$ 840 for the 2 years (\$420 per calendar year for 2 years). Parents have the option of purchasing the machine at the end of 2 years for an additional \$100.

The following items are not included in the fee payment-

- Reimage cost (\$50) incurred as a result of a user's non-compliance with ICT policies.

- Laptops are to be charged up at home every evening to ensure that battery levels are maintained for the duration of the school day. As ALL students have been provided with an extra battery, therefore battery exchange or recharging will NOT be provided by ICT Support. (Students who do not comply may receive consequences from staff).
- We recommend students leave their chargers at home.

13. Backing up

It is the sole responsibility of students to back up personal/non-schoolwork files. Students should not rely upon network files and network backing up for file security of personal/non-schoolwork files.

14. Laptop Usage Locations

ICT Support is located above the library and provides service in person during normal school hours 8.30am – 4.00pm Monday – Friday (except public holidays or days when the College's administration offices are closed). Please note ICT Support provides minimum levels of support during the school holidays due to other ICT priorities in the College. It is the responsibility of the student to log issues, follow-up jobs and submit or collect equipment. Students should not leave equipment at the ICT Support Office when it is not attended. The College will endeavor to have the laptop returned to the student as soon as possible but this may take up to 48 hours (subject to compliance with conditions).

18. Return of Laptop, Charger and Carry Bag

The Laptop, charger and carry bag must be returned in "good condition and working order" (as determined by an inspection by Calvary Christian College or its contractors) prior to the student leaving the College or when Calvary Christian College otherwise requests. If deemed necessary, repairs will be undertaken and any excess will apply.

The College will require the laptop to be provided to ICT Support at least annually for monitoring and service. The laptop may be requested at other times for routine or unforeseen maintenance needs.

Key Selection Criteria for provision of 1-1 Programme

In the process of selecting the most appropriate personal computer, supplier and package inclusions for the program (in no order of priority), Calvary Christian College took into consideration a number of Key Selection Criteria in order to arrive at our decision.

- AFFORDABILITY (the total package price to parents and the College)
- EDUCATIONAL SUITABILITY (the features of the PC)
- TIMELINESS (the ability of the device to sustain demands of 3 or 4 year educational context)
- WEIGHT (in consideration of students need to regularly transport the PC)
- BUSINESS PARTNERSHIPS (strategic importance)
- RELIABILITY (ability of the PC & supplier to maintain the PC operationally)
- TECHNICAL (features with special emphasis on Battery life/Power usage/weight/robustness)

Significant time and effort was invested in this task and the College also considered the rapid change in technology, the increasing costs of insurance and current contextual factors (interest rates, inflation etc). It is acknowledged that such decisions are made with the best intentions at the time not withstanding the changing nature of such factors.

Caring for your Laptop Computer

There are a number of things you can do to maximize the reliability of your laptop and to avoid incurring repair charges either during its life or when it is returned.

Q) What should go in your Laptop bag?

Please be careful not to store anything except your Laptop in your Laptop bag's main compartment. The extra pressure could result in damage to your Laptop. The front pocket of your Laptop bag should hold your adapter. Adding extra items could damage your components, bag and even your Laptop.

Q) How should you pack away your Laptop?

Always store your Laptop bottom down and with the LCD facing away from the pocket. Wrap the cord loosely around the power adapter or the cord will become damaged.

Q) How should you handle your Laptop?

Try to avoid moving your Laptop around when it is on. Before switching on, gently place your Laptop on a stable surface and then switch on. You still need to be careful with your Laptop while it is in the bag. Do not drop the bag from your shoulder. Always place the Laptop bag gently down. Laptops should be switched off before placing into the bag.

Q) How do I care for the Laptop computer bag?

The bag should be fully zipped up before being carried and must be fully unzipped before removing the Laptop to avoid non-warranty bag damage.

Q) What are the best operating conditions?

Avoid exposing your Laptop computer to: direct sunlight or sources of heat such as desk lamps, dust, dirt, rain, liquids or moisture, heavy shock or vibration.

Q) How do I take care of the LCD screen?

LCD screens are delicate. Always be gentle when putting your Laptop down or closing the screen and avoid lifting the Laptop by the screen. To clean your LCD screen: Switch off your computer. Lightly dampen a non-abrasive cloth with water and gently wipe screen in a circular motion. Do not directly apply water or cleaner to the screen. Avoid applying excessive pressure to the screen.

Q) How do I take care of A/C power adapter?

Connect your adapter only to your Laptop computer. Keep your cord away from heavy traffic areas and avoid placing heavy objects on top of it or stepping on it. When unplugging the power cord, pull on the plug itself, rather than the cord. Avoid wrapping your cord tightly around the adapter box.

PLEASE NOTE: *Intentional damage, major cuts, breakages or exposed cables are not covered and will attract a replacement charge (Minimum \$100 excess). Please report minor damage before it becomes significant.*

Q) How do I take care of the Battery pack?

Once a week fully flatten your battery. Then re-charge the battery fully. This will extend the life of your battery cells. Do not tamper with the connections.

Q) How do I take care of the Keyboard?

Gently brush your keyboard with a clean soft bristled paint brush or similar to remove dirt. If any key tops are missing or keys are damaged, take your laptop for repair immediately. We can replace a single key top but continuing to use the keyboard with a missing key top can result in us having to replace the entire keyboard.

Q) How do I clean the case?

Take a non-abrasive cloth and spray Windex or like cleaner on to cloth to moisten. Gently rub your laptop casing with the moistened cloth to remove any dirty marks.

ICT Services area – procedures
