

CAREER ADVISERS MESSAGE

It may only take one piece of news to lead a student towards success in their life's career.

The decision is yours

Are you unsure of your career path? Do you need to talk to someone? This career newsletter is your guarantee that you are well informed of all of the options, but you need to research websites and talk to teachers and relatives to gain their knowledge as well. Come and visit me and we will have a discussion on what might suit you best.

Career Hotspot:

Podiatrist

Podiatrist specialises in looking after the health of people's feet. They diagnose, treat and prevent foot abnormalities and educate the public about good foot health.

Personal Requirements:

- Interested in health care
- patient and caring manner
- desire to work with people one on one
- good with hands
- good communication skills

Education and Training:

To become a podiatrist you have to complete Year 12 HSC or equivalent. You will then need to study at university and complete a Bachelor of Podiatry which is usually a 4 year course. Post-graduate education, including Graduate Diploma, Master and PhD level courses are available to podiatrists. Qualifications may result in developed expertise in diabetes care, podiatric surgery, or sports medicine.

Employment Opportunities:

Most graduates enter private practice on completion of their course. Some work in group practices with other physicians or specialists, you can also work in private and public hospitals.

To find out more visit www.podiatry.asn.au

Jobs of the Future

Toxicologists

Toxicologists study the harmful effects of chemical, physical and biological agents on living organisms by detecting and examining the symptoms, mechanisms and treatments of poisoning (especially the poisoning of people).

Electrical Group Training (EGT) provides employment and training opportunities in the electrotechnology industry. Aimed at producing highly skilled and motivated tradespeople.

Electrical Apprentices are exposed to the full range of practical training and hands on experience in the electrotechnology industry providing Host Employers with a consistent supply of high quality workers to support their business on a short or long term basis.

Electrical Group Training (EGT) is looking for **school leavers** to fill apprenticeship vacancies. As one of the largest employers of electrical apprentices in Australia, our apprentices are amongst the safest and most highly trained in the electrotechnology industry, and we are currently seeking to take on new applicants in **Western Australia!**

The benefits of being an EGT electrical apprentice

- Get paid while you learn
- You will finish with a nationally recognised qualification
- Expert support and mentoring throughout the duration of your apprenticeship
- Apprenticeships available in a wide variety of electrical fields, including mining
- We are the largest electrical apprentice employer in Australia

Ideal candidates must

- Be located in Perth Metropolitan Region or looking to move to WA
- Have a positive attitude to work and training
- Have proficient mathematical skills
- Enjoy hands on work and problem solving
- Have good communication and team skills
- Be fit and able to undertake manual tasks

For more information go to: <http://egt.net.au/vacancies/>

UNIVERSITY INFORMATION

Western Sydney University's HSC True Reward early offer program has officially launched.

Applications are now open for the program that plays to student's strengths. Under the HSC True Reward program, early offers will be made on the 13th of December based on HSC subject marks and not the ATAR.

For more information visit: <https://www.westernsydney.edu.au/future/study/application-pathways/hsc-true-reward.html>

Open Day – La Trobe University Sydney Campus

- 4pm – 7pm on Thursday, 30 August at 255 Elizabeth Street
- Speak to current students, tour our Sydney Campus, receive one-on-one course advice and meet current lecturers during a drop-in session.
- Visit latrobe.edu.au/openday to register and for more information.

Strong focus on academic support

Whether students study business, IT or health science at our Sydney Campus, they'll receive personalised support throughout their studies. La Trobe was founded 50 years ago to broaden participation in higher education, and today we still strive to provide opportunities to students who may think university is out of their reach. In addition to small class sizes, peer mentors and academic workshops, we have a team of Academic Advisers who provide one-on-one guidance and support to all students.

Early Admissions Program closing soon

Applications for ASPIRE, our early admissions program, close on Friday, 31 August. ASPIRE recognises and rewards students who are leaders and volunteers within their community with an early offer to La Trobe courses in September before they sit their HSC exams. If you have any students who have volunteered with a charity or community group, been in a leadership position in sport or school, or been involved with local sports groups then please encourage them to apply: latrobe.edu.au/aspire

UOW's Year 12 Newsletter

A reminder that students and parents can get important information about UOW, Early Admission, UAC and Open Day, as well as study tips and advice direct to their email by signing up to the [Year 12 Newsletter](#).

HSC Economics Study Day

The Faculty of Business invites you and your students to attend our free Economics HSC Study Day on 5 September from 9.30am to 2.15pm. Find out more information and [register here](#).

There is still time for Year 12 students to apply for UNE's Early Entry program.

What is UNE's Early Entry?

Early Entry is a great way for your students to secure their place at university.

We understand that an ATAR or OP isn't the only measure of a student's potential to succeed at university.

Our Early Entry program is based on your School's recommendation of the student and their abilities.

To find out more about Early Entry [download the brochure](#) or [visit the website](#).

Benefits

Benefits of Early Entry include:

- No application fees
- Based on School's recommendation - not ATAR/OP
- Open to all Year 12s
- Students apply for up to three courses and are considered for an offer for each course
- Most [undergraduate courses](#) are available
- Courses can be studied on campus or online
- Offers released in early November
- Defer offers for up to 2 years

Dates

Applications for Year 12 students are open now. Students apply direct through our [Early Entry portal](#).

Key admission dates are:

- 28 September - Applications for Year 12 students close
- 12 October - School review of applications close
- Early November - Offers made to students

We're here to help

If you have any questions or need assistance, remember we're here to help, so please do not hesitate to contact your School Liaison Officer or our Future Student Team.

- Visit our [website](#)
- Call the Future Students Team on **02 6773 5005**
- Email: earlyentry@une.edu.au

In addition to UNE's Direct Early Entry Program, UNE will also participate in UAC's Schools Recommendation Scheme (SRS) for 2019. Students can participate in both programs if they wish.

Applications are now open for the UNSW Indigenous Pre Programs and the UNSW Indigenous Admissions Scheme.

- The Pre Programs are for Aboriginal and Torres Strait Islander people interested in applying to study in the areas of Business, Education, Law, Medicine and Social Work. This is a residential academic program and will run from Tuesday the 20th of November to Wednesday the 12th of December. Participants stay in a college on campus for the duration and all travel, meals and accommodation costs are covered by Nura Gili. The students attend class each day from 9am to 5pm. During class time, they will attend lectures, tutorials, complete presentations, assessments and exams. They will also participate in two hours of tutoring twice per week in the evenings. At the end of the three and a half week period, all participants will attend an Exit Interview, where they are given feedback on their performance and will be advised if they will be made an offer to study at UNSW next year. The link to the application form for the Pre Programs (Business, Education, Law, Medicine, Social Work) is below.

<http://www.nuragili.unsw.edu.au/unswindigenouspreparatoryprogramsapplication>

- For applicants interested in study areas **not covered by the Pre Programs**, the entry pathway is the Indigenous Admissions Scheme. To apply for entry via this process, applicants must complete the online form and include supporting documentation after which they may be invited to attend an interview with Nura Gili and Faculty staff. They are also required to complete a 90 minute written task.

<http://www.nuragili.unsw.edu.au/iasapplication>

Feel free to forward to your networks and if you any questions, please contact Nura Gili on (02) 9385 3805 or email asknuragili@unsw.edu.au.

TAFE and COLLEGE INFORMATION

TRY A TRADE! Run by Apprentices and Industry specialists

Learn about amazing career opportunities in the visual industries at VISUAL IMPACT SYDNEY 2018. Booking is essential as places available each are capped.

The Australian Maritime College will expand its reach into key national and international markets following the establishment of a study centre at Sydney's iconic Darling Harbour.

The College will deliver two postgraduate maritime degrees from its waterfront base at the Australian National Maritime Museum (ANMM) from February 2018, with plans for a third degree to come online in 2019.

AMC Principal, Professor Neil Bose, said the establishment of the interstate study centre would further strengthen the College's reputation as Australia's national institute for maritime training, education, consultancy and research, and offer opportunities for future strategic growth.

AMC will deliver two Masters level courses from its Sydney study centre. The Master of Engineering (Maritime Design) is targeted at engineering professionals already in the workforce who wish to develop a career in the technical management of maritime engineering projects, including those in maritime defence, naval platform development and autonomous underwater vehicles.

The MBA in Maritime and Logistics Management is a business-oriented program that equips graduates with a high level of understanding of the logistics and maritime industries and prepares them to undertake senior management positions in these industries.

The establishment of the centre builds upon other successful interstate ventures including: the delivery of maritime training programs in the Torres Strait Islands; training partnerships with key interstate education providers, including the third year of the nautical science degree at TAFE NSW Hunter

Visit <http://www.amc.edu.au/study> for more information

GENERAL INFORMATION

Australian Refrigeration Council – Climate Control Industry –

Without the Climate Control Industry you could not grab a cold drink from the fridge and you could not escape from the freezing weather outside without indoor heating in your home. In addition, surgical operations and the transport of food rely on the necessity of refrigeration.

The Climate Control Industry is ever growing. *Refrigeration and Air Conditioning are occupations in demand*, with a wide array of Career Pathways e.g. own your own business, work for a big firm specializing in building management, or focus on supplying medical equipment for surgical operations, or become a project manager overseeing large developments. In addition, your skills are easily transferable all over the world.

Learn about the climate control industry

It's not a stretch to say refrigeration and air conditioning is vital to mankind's survival. When you consider surgical operations can't happen without refrigeration facilities, or that there'd be no transport of meat without refrigeration – then you start to understand how important a role a refrigeration and air conditioning technician plays in society. On top of that a record number of air conditioning units are being installed in homes and buildings each year, which means a demand for services are increasing rapidly.

Manufacturing Skills Australia highlighted refrigeration and air conditioning as an “occupation in demand”

For information about studying Certificate III Refrigeration and Air Conditioning, or an Engineering Degree go to www.arcltd.org.au/careers

Become a ski instructor in Japan this year on an EA scholarship

Not sure what to do when you leave school? Turn your love of adventure into a career and become a qualified ski instructor in Japan. We have six scholarships available for intermediate-to-advanced skiers who are serious about a career in snowsports.

EA Scholarship Program

Each year, we give a select group of school leavers the opportunity to train and work as ski instructors in a foreign country. This year, we have ten scholarship positions available in Japan. We're looking for intermediate-to-advanced skiers who are adventurous, outgoing, and interested in travelling the world as a certified ski instructor. Courses start from \$5975 and include:

- World-class ski instructor training
- Gain an internationally recognised qualification
- Get a guaranteed ski instructor job offer
- Season lift pass
- Free accommodation while training

- Level one examination fee and learning materials
- EA hoodie
- Support from a local EA Representative

Successful applicants will get half their course fees paid for as well as discounted flights and insurance.

Why should you consider becoming a ski instructor?

- No student loan
- Get paid to ski every day
- Receive an internationally recognised qualification
- Travel the world
- Make lifelong friends

How to apply for the scholarship

Reply to this email and explain to us in 500 words or less why you want to become a ski instructor in Japan.

CCUSA Australia.

Providing Exciting Summer Camp Jobs and Work and Travel Adventures in the USA and Around the World

Here is a unique opportunity for your Senior Students to meet an American employer “in-person” and to learn more about the Camp Counselors USA 2019 program and the benefits of this experience as they transition from school to University or the workforce. CCUSA is hosting a Director from **Frenchwoods Festival of the Performing Arts Camp in New York** and a Director from **Pali Adventures Camp in California** in Sydney on a promotion and recruitment drive from **Wednesday September 5 to Friday September 7**

CCUSA & Frenchwoods-Pali invite your students and their parents to a free special Information Session on Wednesday 5, 6.30 – 7.30 at their Head Office Level 4 300 George Street Sydney. At this one-off

event attendees will not only learn all about working at a US summer camp, but will also get to meet the Camp Directors face-to-face and possibly interview for a position at Frenchwoods and/or Pali for the next US Summer (June to August 2019).

Australians aged over 18 are needed to care for the campers (children aged 8 – 16) and facilitate the amazing programs and activities that these two camps have on offer (see attached flyer for specific positions). CCUSA sponsor the special US J1 Visa needed to work at camp, screen and prepare participants for the experience, and provide on-going support once overseas.

Should you require any further information go to <https://www.eventbrite.com.au/e/sydney-meetinterviewget-a-job-at-frenchwoods-or-pali-adventures-us-summer-camps-tickets-47576736299?ref=ecal>

Pilots of Tomorrow Scholarship – Jobs at 40,000 feet:

We are pleased to announce a joint initiative to offer a future pilots scholarship program. The program is open to high school students interested in a career as an airline pilot. The aviation industry is experiencing extraordinary growth but a shortage of pilots is expected. See more information at sydney.flightexperience.com.au/scholarships/ or email ben.evans@flightexperience.com

Choose teaching as a career?

The NSW Department of Education has scholarships open to HSC students who want to become teachers. Receive a head start in your teaching career with a permanent teaching job at the end of your tertiary teaching studies! Apply before September 14th teach.nsw.edu.au/get-paid-to-study
