1. RATIONALE

Scholarships are awarded at Dominic College for students in Years 7-10 to further and enrich their secondary education. Scholarships are offered to students who demonstrate talent and/or achievement in particular areas of learning. The intent of a scholarship is to support such students in their endeavours to achieve high levels of accomplishment.

Scholarships complement the College's program of financial assistance to disadvantaged students and families in need.

Scholarships are awarded to students on established criteria and reflect the values and purposes of the award. The purpose of the College Scholarship Program is to:

- Encourage the choice of Dominic College as a high school destination for talented students;
- Promote aspects of the College in which it has traditionally excelled and offers a strong program of study;
- Facilitate opportunities for outstanding students to benefit from quality experiences at the College that enable them to explore their skills and talents in the area of Scholarship and to strive for significant goals.

2. TYPES OF SCHOLARSHIPS

The College has a strong history of achievement by Old Scholars in a number of areas. In particular many Old Scholars enjoy great success in four chosen fields. The College offers scholarships for these four different dimensions:
