EDITORIAL.

We are all nowadays, school conscious. Yes, even though the result of our studies may not be apparent to us at present. The fruits of our work will be shown later in life, when we shall truly become a part of the complex world of today.

As we step over the threshold into a new exciting technological age, our dependence upon our knowledge, that we have acquired at school, will become all too apparent: terrestrial developments, electronics, power-operated machinery, complex communication equipment depend on automation. But to carry on the relentless search for knowledge, and to operate this equipment we need properly trained people, in the future these people will be YOU.

Without a doubt the student will be eager to reap his share of these benefits of scientific progress, as he has been in the past. For it is true that students have been conducting experiments and solving obstacles in the way of progress since the beginning of time. This does not mean that only the brilliant and senior enthusiasts of a class can enter into the scope of science. Isaac Newton, who is known as one of the creators of the science of astronomy, was induced to study the motion of falling bodies when, one day while still a boy, he saw an apple fall from a tree.

Thanks to men like this, great tracts of knowledge are now open to us. We can become conversant with theories, formulae and methods of calculation through books. Make good use of them.

Ernie & Eckles.

## RECTOR'S WORD

This issue I would just like to remind you about an attitude of mind which might be summed up in the word SERVICE. The late president of the USA, John Kennedy once told the youth of that country to ask themselves no what their country would do for them but what they could do for their country.

Rather than being among those who sit and expect other people to do things for them all the time let us be up and doing to help others at all times in as many ways as we can. We live in an age which calls for ACTION. We live in a Church which calls us to ACTION. Let us then be ready to DO things for others. I would like to congratulate those boys who have been contributing to the 'Help India' appeal at the Tuck Shop and those who were behind the appeal for the blind. It is the little thing we do willingly and of our own initiative that is so indicative of this spirit of service. Good work and keep it up.

# GRAPEVINE

Savio could be going into Soccer in a big way. After only four days notice the newly formed OPEN SOCCER TEAM won their first match quite comfortably. The next step is undoubtedly the World Cup.

\*\*\*\*\*

Savio goes social. News has it that the Senior Boys have the chance to enhance their dancing abilities with some students of the Holy Name School. This idea has been greeted with mixed feelings by many, but on the whole the boys are looking forward to it (dancing lessons) with great enthusiasm.

\*\*\*\*\*

The number of spectators at the School Sports was surprising, as was the number of female admirers, which almost outnumbered the competitors.

\*\*\*\*\*

It is interesting to note that the "Lawn" where the students of the "Academy of Learning" used to assemble, is now, through the "HARD WORK" of the boarders, being excavated. Part of this "Precious Lawn", which once, held a penalty of the "Black-Jack" if trodden on, is about to be put under concrete.

\*\*\*\*\*

The "TUG-O'-WAR", no doubt, proved to be the most popular event of the Sports.

Judging by the looks on the faces of the competitors and of the spectators the most strenuous for both.

ALL FOR THREE, TWO, AND ONE POINT(S).

\*\*\*\*\*

Unless an official referee (teacher or student) is found to control the secondary games on sports day, eg. Volley Ball, the standard of the game will deteriorate and the interest in the sport will be lost.

\*\*\*\*\*

The number of chips in each packet which can be obtained at the school tuckshop on Fridays, is now at a minimum. They now average 3/a cent.

J.B. II: & ATLAS

Dear Ed,

On behalf of myself and several of my school mates I wish to congratulate the staff concerned with the organization of the recent school sports. We appreciate the work put in and results got out.

The organization of the weekly sports day, however, is another matter altogether. There is little time for sports, and it may be understood by most that certain football teams will play only once every three or even four weeks. The remedy to this situation, I believe is

1. Four periods of school in the morning,
2. No playtime after Mass.

This would give a good two hours for sport. Either this or change the 5th morning period for sodalities.

Dave Dee, Dozy, Beaky, Mick, Tich.  
(All unsatisfied Sportsmen)

We appreciate the difficulty but it is essential to have five periods in the morning to meet syllabus requirements and it is felt that the boys must have sufficient time to eat their lunch as you can't play good sport on an empty stomach. With regard to sodalities, this is a matter that could be discussed and perhaps a solution found.

Ed.

Dear Mr. Ed,

I would like to complain about the noise made by the Matriculation students. Can anything be done about this.

"Can't Study".

This matter has been dealt with by Father Rem, with amazing results, however I would like to point out that you and your companions often create a considerable disturbance when you come to the library for references.

Ed.

Dear Mr. Editor,

As a mere parent may I be permitted to congratulate the boys concerned on the first copy of their excellent paper.

"Mother"

Thanks.

Ed.

### Loved Ones:

The "big-beat" sound of the Loved Ones was thudding from behind the curtains. The curtains were drawn. Everything was in darkness, with only the silhouettes of the group visible. A light from behind threw shadows across the stage. Simultaneously the spotlights flashed on, and lead singer Gerry Humphries hurtled onto the scene. Dozens of coloured streamers were flung at him, and onto the stage, and the tempo increased to an ear-splitting pitch, with Gerry's screaming voice almost drowned by the noise of a packed San Carlo Hall.

The performance was both wild and slow, brilliant and breathtaking, highlighted by the rhythmic beat of the drums and the wild gyrations of the organist. It was a knockout show, the best of the year.

The Loved Ones were ably supported by The Brotherhood of Myrtle and Barry Pilkington and The Breakaways, both from Hobart. Undoubtedly the former were a very good group. They were very original and had a good stage-act. Billed as a group set for mainland honours, they should be a hit around the Hobart scene. A surprise was Barry Pilkington and The Breakaways. Their treatment of tunes was good, but they usually confined themselves to top songs. However, both groups were well received, and with more experience should come more to the fore.

### Top Groups-Battle for Supremacy:

Tasmania's two top groups, the Kravats and Chaos & Co., appeared together on the Bobby Bright show. This was the first time in my memory that they have on the same bill.

The Kravats were, without doubt, the better group on the night. Their interpretations of top songs were almost perfect; they played predictions accurately, and in general were far superior. On the other hand some of the music which Chaos & Co. played was good, but too much of the remainder was devoid of rhythm and beat, and was too slow to be danced to. Another factor which points the Kravats as the better group is that they were chosen to back Bobby Bright, and not Chaos & Co.

### Coming Tours:

Hobart will soon be swinging to the sound of top mainland artists, many will be coming in the next few weeks. With the Loved Ones appearance a fortnight ago, at San Carlo we are looking forward to bigger and better things. Ronnie Burns and Dinah Lee will both be here in April, on the same bill. So too will Jeff St. John and the Id. Finally the Easybeats will make the scene in May (see last issue)

## Normie:

Normie Rowe's new song "I Don't Care/Going Home" has been tipped to be a big seller in Britain. However, his other two releases there "Ooh La La" and "It's Not Easy" have both been comparative flops. The latter was heralded as a big hit. But against this we find that Normie has been gaining popularity in England, and so we look for greater success with this new record.

## Paul Jones:

Since he left the Manfred Mann group, Paul Jones has been highly successful. His two releases thus far "High Time" and "I've Been a Bad Bad Boy" have sold well, and he has put out an L.P. "My Way". This break into performing raised some doubt at first, but these have been swept away now, as he has only turned out good material.

## Hollies:

The Hollies are a very underrated group in Britain especially. They have scored thirteen straight hits there, with good records, such as "Just One Look", "Here I Go Again" and "Bus Stop". They were to have made a tour of all Australian states except Tasmania and West Australia, with the Animals, but their drummer took sick in Germany, and they cannot make it. "On a Carousel", their latest outing, is sure to do well, and we wish it every success.

## Top Ten:

1. Release Me ----- (Engelbert Humperdinck)
2. I'm a Believer ----- (Monkees)
3. Ruby Tuesday ----- (Rolling Stones)
4. There Goes My Everything ----- (Col Joye)
5. Georgy Girl ----- (Seekers)
6. Just One Smile ----- (Gene Pitney)
7. Penny Lane/Strawberry Fields Forever -- (Beatles)
8. Kind of a Drag ----- (Buckingham)
9. Save Me ----- (Dave Dee, Dozy, Beaky, Mick & Tich)
10. Happy Jack ----- (The Who)

## Three Hits to Happen:

GRIZZLY BEAR E.P. (JOHNNY YOUNG)  
GOING HOME/I DON'T CARE (NORMIE ROWE)  
I'M A MAN (SPENCER DAVIS GROUP)

## SPORTS.

### MORGAN vs. McCANN.

In the opening match of the Inter House football competition Morgan defeated McCANN by 30 points in a hard fought scrumbly match.

The game opened with Peter Lynsky playing exceptionally well around the packs. A delightful pass from his boot found Peter Hope deep in the forward pocket but his kick floated across goal where it was fortunately marked by Nipper Edwards. His goal was his second and McCann were making Morgan look like novices.

Several Morgan players were holding their position well, namely Paul Mann who was giving his forwards many opportunities while David Rosson and Frank Hill were defending well.

Good play from F. Hill P. Mann and J. "Chalky" Smith raised one flag for Morgan.

Morgan were now looking a better side and they attacked strongly but their forwards found McCann's custodian S. "Sleepy" Goss unpassable. The first half ended with McCann holding a valuable lead of 16 points.

The second half opened with Morgan attacking their scoring area incessantly. They now looked a revitalised side and all players were going in for the ball with renewed vigour.

Goals for Morgan by Chan, Smith and Rosson put them within one point of the fastly tiring McCann team. They then hit the front with a fine goal that came as a result of a beautifully executed blind turn by Jimmy Chan.

Sleepy Goss again began to fire but he was not receiving enough co-operation from his team mates up forward. With a McCann defeat visible, Sleepy tried to lift his side with a long characteristic dash down the wing but David Rosson was in position to save for Morgan.

Finally Morgan's overall strength throughout the game was too much for the tiring McCann side and they ran out winners by a fine margin of 30 points.

BEST PLAYERS: Morgan, P. Mann, J. Chan, D. Rosson, F. Hill, S. Chrost.  
McCann, S. Goss, K. Donovan, P. Lynsky, N. Edwards.

VOTES: P. Mann  
J. Chan  
S. Goss

ENQUIRE,

CHRIS BARRY

3RD YEAR

COLLINGWOOD,  
THE BIG GAME EXPERTS.

Collingwood known to every footy fan as the Magpies-are the giants of the Aussie Rules football world. No team commands more respect than Collingwood. No team has won more premierships than Collingwood. No team has played in more finals than Collingwood. They are the chief exponents of the "Big Game" as it is known. It is generally conceded that for a team to win the premiership it has first to beat Collingwood.

Magpies was first formed in 1892 from the Britannia Club which had a great record in junior football, and in 1897 was among the first clubs to breakaway from the Victorian Football Association and form the VFL. And what a wonderful record Collingwood has had since then. They have won the VFL premiership 13 times as well as being the only team ever to win four consecutive grand finals-1927-28-29-30.

In the first 15 years of playing football, Collingwood was never out of the final four, and since 1892 they have lost count of the finals they have played in. Collingwood has always been the breeding ground of champions and they include such immortals as Jack Regan, Ron Todd, Gordon Coventry, Thorold Merrett, Lou Richards, Bill Twomey and present coach Bob Rose.

Yet despite their strength and reputation, the Magpies have not had a good "run" during the past few years. They have played in only four finals since 1958 and it has been nine years since they won the premiership. In 1961-62-63 they did not make the final four. In 1964 Melbourne beat them in the grand final by four points. In 1965 the Saints pipped them in the semis and in 1966 Saint Kilda again defeated them by a point this time in the grand final.

Collingwood hate getting beaten and when they do they go head hunting. They have such a tremendous back-up of reserves that it is a battle to stay in the team week after week. Perhaps part of Collingwoods strength lies in their resilience. They rarely play a game and when they get beaten they have a knack of bouncing back to win the following week.

a The Magpies talk a lot of shooting down and doubt will be in the finals to come.

---

JACK: I dreamed that someone shot me and when I awoke I screamed -in the mirror I saw there was a big hole in my head.

BILL: Really, What happened?

JACK: It went away when I closed my mouth.

---

The stage troupe had been reduced to playing in small towns. One of the players had quit and an amateur was put in his place. The manager was getting desperate. The financial situation was acute. "I want you to go out there boldly," he told the youthful actor. "You're not afraid of the audience, are you?" "Certainly not," said the rotund protege. "We've got them outnumbered!"

# SAPIENTIA

The departure of Fr. O'Sullivan has been noted by many of the senior students. One of the most popular views was his open-mindedness" on various political topics such as the D.L.P. and Communism. Many students, last year, especially in Third and Fourth years, remember his various methods of persuading obstinate young men in what they should believe. The other view which was the most popular, was that he should not have gone. This was shown greatly by the results achieved in the exams. in all his subjects, and this shows how greatly he will be missed in later years, because we will be lacking an excellent teacher. Many students who have just come to the senior school will not know Fr. O'Sullivan, a fiery Irishman of small stature, but with a big heart, and with a typical Irish brogue. From all the senior students at Savio College we extend our sincerest thanks to Fr. O'Sullivan for his help in our studies. We hope he is very happy in his new post at Ferntree Gully.

When Fr. Breen left at the end of December for a new post on the Mainland, there was a large gap left in the academic and sporting fields. Due to his perserverance in the School's Board classes, mainly in Physics, Chemistry and Maths., a very substantial pass in these subjects was achieved. In the sporting field he started many new sports such as hockey, soccer and table-tennis. In hockey, the team managed to get into the Finals. He also managed to get a team into the finals of the soccer. Fr. Breen coached the U/15 football team in the finals after a very exasperating season. All this was achieved in the short space of one year. We also thank Fr. Breen for helping us so much and we hope to progress much further this year in all those fields.

When we arrived at school on the first day of the new year, the question on everybody's lips was "I wonder what the new teachers are like?" This was soon answered at the morning Assembly when Fr. O'Leary made the introductions. First there was Fr. Remie, a huge Dutchman, who was our new Prefect of Studies. When Fr. Remie made his introductory speech, every one knew there would be no messing about with him. Then Fr. Curran was introduced to us. At first glance he seemed a quiet man, and this was proved later. Then came the two new brothers, Bro. Halliday and Bro. Fox. These two are very popular, especially Bro. Halliday, who get on well with everybody. Bro. Fox although he spends most of his time down at the junior school is proving most popular especially with first year. The new French teacher for the Matriculation students is also proving popular. The boys are really keen and it is hoped they will show this in their exams, and how they profit from these lessons.

## LAUGH AND THINK

The boy stood on the burning deck,  
He must have found it hot,  
But if he had sat down instead,  
He would have been a clot....

\*\*\*\*\*

Always remember,  
Frequent naps keep you from  
getting old, especially if you are  
driving a car at the time.

LAST WEEK'S SOLUTION

Why did you leave your last job?  
Because I was told to do something  
I didn't like.  
What was that?  
I was told to look for another job.

Tourist: "Do people fall from here often?"  
Guide: "Nope, just once..."

Ike: "I hear that your buisness is improving by leaps and bounds."  
Mike: "Yes, and the beer breweries say it's getting better by hops."

A wealthy oilman, after many years without vacation, decided to take  
a trip around the world. Arriving in Paris he hired a guide to tour  
the city. As they approached the Eiffel Tower, the millionaire gasped  
in amazement. Then he asked his guide, "How many barrels a day do  
they get out of that rig?"

It's a give and take world, -sometimes you get a headache, and other  
times you give them!

### IMPORTANT

The writers of this column need all the material that we can get.  
If you have any jokes, cartoons, or riddles, PLEASE hand them in so  
that we can consider them for publication.

### VIETNAM:

This concerns many students at our school because of Conscription. They, one day in the future, may find themselves in Vietnam as fighting soldiers. The reason that soldiers are in Vietnam is that they are only protecting their own interests, their liberty, their families and their property. Many do not seem to know how much Communism has leaped forward in a generation. In 1942, only Russia was a Communist State. In 1949 China had succumbed to Communism, and in 1967 in addition to Russia and China, half of Korea and Vietnam had fallen. In South Vietnam the Communists are trying by infiltration, to overcome the country. They are not only fighting the Allied soldiers, they are murdering kidnapping and terrorising the civilian population. You can read in the papers how the Viet-Cong are protesting about the manner in which the Allies, especially the Americans, are fighting the battle. Maybe they are using bombs, but they have no choice, as it is the only way in which they have any hope of winning the war. The Communists will not come to the peace table unless the Americans leave Vietnam with all their forces, which is stupid, because everyone knows that the North Vietnamese will only come in and take over the country.

### ENGLAND.

At Land's End in England, near Penzance, where the tanker Torrey Canyon went aground, all the hoteliers are worried that they might lose a great many of their customers because of the oil which is floating towards the beaches in that part of the country. The oil that flowed from the ship is moving towards the beaches in the South West corner of England. To stop it reaching the beaches, the Navy poured detergent on the sea. But the stricken tanker had lost only a small percentage of its oil, with more than half still intact in one section of the tanker. As a result of this the British Government decided to bomb the tanker from the air. This was done, and although the tanker blew up letting most of the oil escape and burn, it left the remains of the tanker on the rocks. An inquiry will be held as a result of this. Now a new menace has come from the oil, the detergent which has been used to dissolve the oil is causing burns. Doctors are now treating sailors and fishermen for burns. The accident is having a great effect on the tourist trade because the hoteliers estimate that they will lose hundreds of thousands of dollars, as no tourist will want to visit these beaches strewn with oil and dead fish.

S. LOCKE

## TWEEDY VERSUS GAHA

In a mediocre match Tweedy defeated Gaha by the impressive margin of 49 points. The game opened with Gaha having first use of the slight breeze but this did not prevent Tweedy from attacking. The Gaha backline fought back but they eventually yielded after constant pressure that was being applied by the Tweedy forwards.

Tweedy were now attacking strongly and DANA BROWN made good position to mark well in the square, but his poor kick raised one flag.

Good attacking football by FISH and FLACK revived Gaha but they were not playing well enough as a team to pierce the almost watertight Tweedy backline that was being held together by GARRY REID.

At this stage many players showed an obvious reluctance to pick up the ball and on many occasions soccer tactics were used in the endeavour to keep the game going.

PAUL BRAZENDALE was now dominating the centre and was giving his forwards many chances.

The second quarter opened with Tweedy looking a better team and with GERARD LEARY now running on the Tweedy's ball, they improved the play by using their handball and teamwork to a better effect than Gaha.

GREG BROWN was now making his presence felt on the backline for Tweedy and the manner in which he cleared the ball from the packs was delightful to watch.

Tweedy picked an easy goal when the Gaha backman, RICHARD MARZALEK misjudged the bounce of the ball and allowed OLLIE WUTTKE to come through and raise both flags.

Tweedy was now going away with the match mainly Gaha had so few triers and Tweedy so many.

PETER DEVERAUX pulled down two beautiful marks in defence for Tweedy and it was pleasing to see the way in which SHANE FISH was trying to lift his failing team.

After half time RODNEY FLACK came into his own and he scored a fine goal. Tweedy forwards made many attacks but the Gaha backmen were now trying too much and it was due to this that Tweedy forward line missed many chances to score.

MERVYN PRESS was awarded a free after a Tweedy backman tried to run for 15 yards with the ball but his kick raised only the minor score. The last quarter opened with Gaha going straight into attack but the Tweedy backline held firm.

Courageous play by the Tweedy half forward flanker MICHAEL BYRNE resulted in a major for his team.

Gaha were now rarely sighted. Then there occurred a scrumbly patch of play on the Tweedy ruck and TULLI came to raise both flags ..... it was his second.

Gaha's fate was decided when GREG HEPBURN, who had been quiet all day, kicked a sixer.

The game ended with Tweedy running out winners by a margin of 49 points.

BEAT PLAYERS: Tweedy - Brazendale, Reid, Leary, G. Brown  
Gaha - Flack, S. Fish, T. Hill

VOTES: 1 Brazendale  
2 Flack  
3 Reid
