

Security Policy

When dealing with Georges River Grammar your financial details are passed through a secure server using the latest 128-bit SSL (secure sockets layer) encryption technology. 128-bit SSL encryption is the industry standard. 128-bit SSL encryption is approximated to take at least one trillion years to break and is the industry standard.

Our Online Services processing portal company is housed within Tier 1 data centres in Sydney. The company is accredited with the School's bankers Westpac Banking Corporation. The data centres offer world class facilities that include temperature and humidity controls, earthquake protection and advanced fire control systems. The processing portal company's architecture is compliant with all relevant bank and payment security standards including the rigorous PCIDSS (Payment Card Industry Data Security Standard). The company is required to remain PCIDSS compliant at all times by undertaking regular audits and network scans from an external qualified security assessor to ensure compliance is so maintained.

If you have any questions about our processing portal security policy please contact the School Bursar on email address bursar@grg.nsw.edu.au.
