Outdoor Education

Immanuel's second campus at the Mount Binga Outdoor Education Centre was established in the early 1980s. For more than 30 years Immanuel students have spent time at Mount Binga – which is located on the Blackbutt Range – learning the value of self-reflection, leadership, self-sufficiency and how to face life's challenges head on.

Mount Binga is an integral part of an Immanuel education with all Year 10 students undertaking a four-week course at Mount Binga during Semester One. All students experience an accompanied hike early in the program as well as a student-planned hike later in the course. Time is spent developing bush survival skills such as building shelters; firefighting; map reading and compass work; and developing knowledge of bush vegetation, food and water conservation.

The Mt Binga program epitomises an Immanuel education. It has been developed in alignment with the College's core values to foster personal growth; spiritual awakening; resilient, healthy pursuits; community spirit; and living out a positive attitude. It represents our commitment to provide students with the resources they need to become young people who make positive contributions as citizens within and beyond the College community.

Mt Binga is not the only outdoor education experience that Immanuel students undertake. The College has a comprehensive program that starts in Prep with an excursion in the Sunshine Coast hinterland. Students have their first 'camp out' in Year 2. The College's various camps and trips are outlined below.
