

Minimum Device Requirements

Battery:

Minimum of 6-8 hours. The battery needs to be able to last the day.

Wifi: ac or a/b/g/n

Devices with only b/g/n will NOT connect to our 5Ghz Wifi

The device wireless specification needs to contain the number 802.11 and the specification 'ac' or 'a'. This is commonly listed as 802.11ac or 802.11 a/b/g/n.

Operating System:

Windows 8.1 (Windows 10 Recommended) or MAC OSX 10.9 or newer.

Windows 10 can be downloaded for free from onthehub.com using the students email address.

CPU or Processor:

A minimum of an i3 processor or equivalent.

Hard Disk:

Minimum of 128GB of storage.

Requirements for optional software

Graphics, Film & TV and Media Studies

We have dedicated computer labs for the above subjects.

As such you are not required to install the software used in these classes on your BYOD device.

There is enough class time for the students to get their work done in class using the specialist software like the AutoCAD, Inventor and Adobe Premier Pro and After Effects.

However, if you choose to install this software on your BYOD device, there are some additional hardware requirements.

Graphics

- Autodesk can be downloaded for free by following our guide on the [software downloads](#) page.
- Autodesk Inventor requires a minimum of 8GB of RAM.
- The Autodesk software will use up requires approximately 30GB of hard drive space. So you may want a laptop with a hard disk that is larger than 128GB.
- Inventor does not run on a Mac OSX. So if you want to use Inventor at home you will need a windows computer.
- You are going to want an Intel i5 or faster CPU/processor to have a good experience. But the minimum requirements from Adobe say it can run on any 64bit CPU/processor.
- Inventor is the most resource hungry program of the AutoDesk suite. If your device can run Inventor it can run anything from the suite.

Film & TV and Media Studies

Adobe Master Suite and has a \$38.50 fee.

Adobe Design and Web there is no additional charge

- Adobe Creative Cloud will require between 15GB – 25GB of storage depending on which applications you install from the suite. So you may want a hard disk that is larger than 128GB.
- Adobe suite requires a 64-bit operating system.
- Premier Pro and After Effects are part of the Adobe Master Suite and has a \$38.50 fee payable at reception. Once paid our IT department can activate the software for you.
- If you only need the software from Adobe Design and Web there is no additional charge and our IT department can activate it for you.
- Installation instructions for Adobe Creative Cloud can be found at on our [software downloads](#) page.
Update: Adobe Flash is now called Adobe Animate.
