

Minimum Device Requirements

Battery:

Minimum of 6-8 hours. The battery needs to be able to last the day.

Wifi: ac or a/b/g/n

Devices with only b/g/n will NOT connect to our 5Ghz Wifi. The device wireless specification needs to contain the number 802.11 and the specification 'ac' or 'a'. This is commonly listed as 802.11ac or 802.11 a/b/g/n.

Note: If your device does not meet this wifi specification it will not connect to our network. You will be required to buy a special USB wifi adapter that is available at reception for \$48.00.

Operating System:

Windows 10 / MAC OSX 10.12 (macOS Sierra) or newer.

Windows 10 can be downloaded for free from onthehub.com using the students email address.

CPU or Processor:

A minimum of an i3 processor or equivalent.

Hard Disk:

Minimum of 128GB of storage.

RAM:

Minimum of 4GB of RAM.

Requirements for Adobe and Autodesk (optional software)

Secondary students, who are doing either Graphics or Film & TV and Media Studies, may install the Autodesk or Adobe products on their personal device. This is optional NOT required.

In order to meet the requirements for the software, the device should meet the following minimum requirements:

CPU or Processor: Minimum of i5 processor

Hard Disk: The installation can take up to 30GB of space, so a 256GB or larger hard disk is recommended.

RAM: Minimum 8GB of RAM

Operating System: 64-bit operating system, Windows 10 / MAC OSX 10.12
