**Character through Christ**

Dear Year 11 and 12 Students and Parents

We recently received information regarding the OP scores for last year (2014) that we thought you might find useful.

This information was presented by Claude Jones and Inese Tenisons representing the QCAA at the Queensland Association of Student Advisors Feedback (Feb 2015).

The information shows the range of OP scores students received if a student achieved the same level of achievement across all subjects.

VHA 1-8  
HA 4-16  
SA 12-24  
LA 21-24

To explain further, the data for all students who exited with 'A' range results (VHAs) for their top 5 subjects showed that those students received an OP score of between 1 and 8. Students who received all 'B' range results at exit (HAs) achieved an OP score between 4 and 16. Students who received all 'C' results (SAs) at exit, achieved an OP score somewhere between 12 and 24.

Please be aware that these "cut offs" can change year to year. While this information is quite broad, I trust it is helpful to you.

Kind regards

Mrs Linda George  
**Acting Director of Studies**
