Year 7-9 BYOD Technology

Students entering Year 7 in 2020 will be required to provide their own device for educational purposes within the classroom.

The device requirements and specifications are based around function rather than a mandated device type or brand.

Functional requirements:

- Stylus enabled device
- Touch enabled
- Front facing camera
- Keyboard
- Long battery life (at least 6 hours)
- Light weight and portable

It is highly recommended that families purchase a sturdy case and insurance in case of accidental damage.

Technology device roadmap

Throughout a student's journey in Years 7-12, it is anticipated that students will require two devices. A new device in Year 7, which should have a life span until approximately the end of Year 9. The second device purchased will then support students as they complete their final school years.

Software Offerings

All students at the College have the following software available to install for use on their device.

Microsoft Office

All students at the College receive a free Office 365 license, which is covered under our school licensing agreement with Microsoft.

This licence covers the following software

- Word
- Excel
- PowerPoint
- OneNote
- OneDrive (1TB cloud storage)
- Outlook

Adobe

The College provides Adobe Design and Web licensing for products such as Photoshop and Dreamweaver for students who may be doing electives which require this software.

Autodesk

A student version of this suite is available to all students. Our Design Technologies lab has this software pre-installed in the lab for student use. Alternatively, when students reach Year 10 they have the option to install this on their own device if they continue studies in the Design Technologies pathway.
