## School vision statement

At Mount Colah Public School our vision is that children leave this school with:

- a set of values — honesty, integrity and good judgement
- a complement of essential skills — linguistic, mathematical, scientific, artistic, physical and social
- an enquiring and discriminating mind and a desire for knowledge
- strong self-esteem and high personal expectation
- tolerance and respect for others.

We value the partnership which exists between school, parents and community and the part it plays in realizing this vision.

## School context

Mount Colah Public School is situated in a bushland setting, north of Hornsby. It has a current enrolment of 464 students. The NESB background of the school community is 13%. Trained and dedicated teachers deliver quality teaching programs in a caring and supportive environment. The school has experienced continuous improvement, particularly in literacy and numeracy over a number of years. The school provides a well-rounded education with the development of the 'whole child' seen as important, through its successful academic, sport, performing arts and technology programs. The school enjoys strong parent and community involvement. The P&C has generously supported the installation of technology infrastructure for learning within the school.

## School planning process

A staff survey in 2017 indicated strong support for Growth Mindset principles and a desire to further enhance students' independence and confidence in approaches to learning. This will continue to be reflected across the school with a common language being used by staff and students.

This has been used as a basis for investigating and implementing the principles of Visible Learning and how those principles enable students to take responsibility for their learning. By introducing Visible Learning principles it is felt that students will be enabled and supported in the process of becoming independent and reflective learners who can process and transform knowledge and skills and apply them to new situations. The Parent survey indicated that more options for Gifted and Talented students should be explored by the school. The school has responded to this need by incorporating the development of a Gifted and Talented Policy and increased differentiation in school programs into the 2018–2020 School Plan.

The School Plan 2018–2020 was presented by the Executive leading each Strategic Direction at the November Meeting of the P&C in 2017 and endorsed by the P&C who expressed their confidence in and support of the School Executive.
School strategic directions 2018–2020

**STRATEGIC DIRECTION 1**
Transforming Learning

**Purpose:**
Create a student centred learning environment that nurtures, guides and challenges all students. At the core is authentic learning with a differentiated curriculum that is flexible, reflective, relevant and responsive to the diverse needs of our students, staff and community.

Guide students to take responsibility for their own learning underpinned by high expectations and excellence in teaching practices.

---

**STRATEGIC DIRECTION 2**
Professional Learning Through Collaboration

**Purpose:**
To ensure a whole school approach towards the implementation of quality teaching and learning by utilising data resulting in consistency in expectation, professional dialogue, and reflective practice. Commitment to building the capacity of all team members to implement effective change in teaching and learning programs.

---

**STRATEGIC DIRECTION 3**
Developing a Partnership School Culture

**Purpose:**
Extend existing partnerships and connections within the community by utilising their skills to enrich the educational experience of students. Develop initiatives to support students and family wellbeing in a holistic manner.

<th>Practices and Products</th>
</tr>
</thead>
</table>
| To ensure a whole school approach towards the implementation of quality teaching and learning by utilising data resulting in consistency in expectation, professional dialogue, and reflective practice. Commitment to building the capacity of all team members to implement effective change in teaching and learning programs. | **Students**  
Students actively engage and participate in the learning process through both individual and collaborative approaches.  
**Staff**  
Staff engages in professional development that is relevant, meaningful and driven by 21st century research and practice.  
Staff engages in the process and development of goal setting and reflection in order to foster collaborative planning and positive mindsets focused on the development and implementation of programs that reflect NESA standards.  
Staff regularly uses student performance data to inform teaching practices.  
**Leaders**  
Leaders mentor beginning teachers and model effective evidence based practice | Develop a whole school professional learning plan that supports the needs of staff for relevant and meaningful training. (school based, BOSTES, other PL)  
Facilitate collegial partnerships through coaching and mentoring at the school level for achieving and maintaining accreditation and supporting PDP goals.  
Provide Professional Learning in the collection and interpretation of student data. | Collaboration within stage team teams to develop differentiated programs and assessment tasks.  
Develop and implement individualised professional learning plans targeted at developing teacher capacity to cater for learner diversity as well as reflecting school directions, stage goals and individual goals |

**Improvement Measures**

- All staff report increased participation in collegial learning as measured by staff surveys.
- All Stages will have refined a range of assessment tasks to better align with differentiated programs.
- Stage meeting minutes record Teacher dialogue indicating their ability to articulate how performance data informs their teaching practice.
- Differentiated teaching and learning programs that reflect the individual learning needs of students ranging from Learning Support to Gifted and Talented are in place.

**Evaluation Plan**

- Review and monitor teaching programs and practices.
- Engage in half yearly and annual review of Professional Development Goals.
- Staff implement assessment schedule.
## Strategic Direction 3: Developing a Partnership School Culture

### Purpose
Extend existing partnerships and connections within the community by utilising their skills to enrich the educational experience of students. Develop initiatives to support students and family wellbeing in a holistic manner.

### Improvement Measures
- Increase parent participation across all school events
- 15% improved response to school initiated feedback surveys from parents
- Multilit program has become a part of the learning support structure within the school.
- Decrease in behaviour related incidents after students receive specific instruction through PBEL lessons on expectations of behaviour.

### People

#### Students
Students become self-directed confident learners by participating in the schools welfare and well-being programs.

Students reflect on their progress against the school wellbeing programs through pre and post surveys.

#### Staff
Through collegial professional development and collaboration, staff implements programs and processes that support student wellbeing.

Utilise parent skills and partnerships to support broader school programs

#### Parents/Carers
Parents and Carers volunteer and actively participate in school classrooms and initiatives using their skills to enrich school life for students.

### Processes
Communicate and engage through provision of opportunities for parents to work in a meaningful partnership in various school events.

Facilitating increased opportunities for parent involvement and reflection in school life in a variety of ways including utilising parent and community expertise and skills as mentors to bring mutual benefits and maximise student engagement and achievement.

Continue to evaluate and modify established school welfare programs such as PBEL, Bounce Back, Rock and Water, Growth Mindset and school values.

### Evaluation Plan
Regular feedback and consultation with the community through focus groups and survey mediums.

Students will be evaluated twice a year, parents once and teachers once.

Behaviour in the targeted PBEL area is tracked for incidents logged by teachers pre and post lessons.

### Practices and Products

#### Practices
Wellbeing programs such as PBEL updated to better communicate school expectations to students.

Teachers build partnerships with parents and utilize their specific skills in the classroom and across the school in programs such as Multilit to increase student engagement.

Survey to inform new directions in welfare/well-being programs.

#### Products
Database of parent expertise and willingness to participate in school programs such as Multilit.

Parents bringing their specific skills such as coding, environmental science, technology, law, commerce and design to expose students to expert knowledge of these areas that teachers may not have and therefore increase student engagement and outcomes.

Increased parental participation in school programs in and out of the classroom.

Students report greater awareness of resilience, independence and self-direction as reported in surveys.
