

Diabetes in schools and early childhood settings 2017

This seminar offers key staff in schools and early childhood settings the opportunity to expand their knowledge and become more confident in supporting and facilitating the day-to-day experience of young people with type 1 diabetes in their care. Sessions will include information about diabetes and diabetes management, and practical workshops covering a variety of specialised topics in more detail including monitoring, pumps, and camps.

Please visit our website diabetesvic.org.au/Workshops for more details on programs available across Victoria.
