Welcome to Eden Beauty Clinic!

Eden Beauty Clinic specialises in paramedical DMK skin revision treatments and beauty services for both men and women. We pride ourselves on our professionalism and passion for achieving client satisfaction. Our staff is committed to ongoing education and training to keep their professional knowledge and skills up to date. At Eden Beauty Clinic, our mission is to deliver results that make clients look and feel their best while enjoying their time in our welcoming and warm environment.

Dr. Danné Montague-King (DMK) approached skin treatment and care in his capacity as a scientist. After years of study and research in botanical science and cosmetic chemistry, Dr. Danné perceived that skin disorders were the result of disharmony in the way that the skin functions.

He reasoned that if he could restore balance to the skin, he would be able to revise skin and enhance its functionality. With extensive research, Dr. Danné became one of the first biochemists to recognise the power of enzymes to hydrate and tighten the skin.

Dr. Danné's revolutionary concept for achieving the youthful and healthy appearance of the skin is: REMOVE, REBUILD, PROTECT and MAINTAIN.

Botanical-based paramedical products make up the DMK skin care program, which offers a range of skin corrective procedures designed to address skin conditions of the face and body, such as acne, open pores, scarring, wrinkles, sun damage, premature ageing, pigmentation and fragile capillaries.

When skin is burdened with years of dead skin build-up, all the underlying processes slow down, creating an ageing syndrome. Therefore the DMK method of skin revision is focused on "Remove, Rebuild, Protect and Maintain".

First, we remove the dead skin cell build-up and then rebuild the remaining living cells by nourishing them with proteins, amino acids and nutrients. Once the skin is returned to a normal, healthy state, it is vital to protect it from the elements, especially the sun. Finally, maintenance and protection go hand in hand. We will continue to support and maintain the health of your skin by offering treatments tailored to your personal requirements.

Our treatments are suitable for women and men. To ensure that you achieve the best possible result for your skin concern, a full skin consultation is required before proceeding with any of our skin treatments. A \$50 consultation fee is required at the time of booking which will be redeemed against your first treatment or products.

DMK Paramedical Treatments

ENZYME LEVEL 1 THERAPY 75mins. \$165

The beginning of your skin journey. The Enzyme formula #1 is designed to create an enzymatic reaction in the skin which will stimulate blood and lymph circulation, increase cell oxygenation and remove toxins and wastes, resulting in a total revision of skin cells and a healthier, more youthful-looking skin.

ENZYME LEVEL 2 THERAPY 90mins. \$205

Achieve more effective removal of redundant dead skin cells and build a healthier, happier skin function. This treatment includes one of the pre-exfoliants:
Prozyme // Quick Peel 1 and 2 // Pro-alpha 1 // Microdermabrasion.

DMK Paramedical Treatments

ENZYME LEVEL 3 THERAPY 105mins. \$245

Addresses more serious skin conditions with the use of 2 different exfoliants.

- Acutrol – designed for acne and rosacea conditions to increase healing and fight bacteria.
- Alkaline resurfacing.
- AlphaZyme – dislodges acne impactions and clears the pores.
- Bihaku – hydrates, brightens and evens out skin tone.
- Eliminare – acne treatment to flush and eradicate deep congestion and improve vascular blemishes.
- Muscle Banding – tightens, tones and firms the skin.

ENZYME LEVEL 4 THERAPY 120mins. \$290

This treatment provides instant results to have you looking breathtaking for a special event. It is designed to revise wrinkles, loss of elasticity and uneven skin textures.

- Instant Lift treatment – non-surgical face-lift, provides instant breathtaking results for special event.
- Remodelling Procedures treatment – addresses deep wrinkles, skin discoloration, enlarged pores and coarse skin textures.

ALKALINE WASH FOR HAIR REMOVAL

Hair removal treatment for unwanted facial hair. Fluffy facial hair can be as much of a problem as strong hair but cannot be treated with Laser or IPL.

Benefits:

- Treatment is painless
- Best solution for people whose skin is not suited to waxing or electrolysis
- The process can be individually adjusted to suit all skin types
- Improves the skin texture and colour, helps to reduce breakouts and ingrown hairs
- Rate of hair growth slows down with regular treatments.

DMK Transdermal Treatments

These treatments are beneficial for most skin conditions as the therapeutic agents are delivered directly into the skin.

According to the CSIRO, infusing transdermal products – products that penetrate the dead surface layers of skin – will increase absorption by 70-80%, allowing for a more effective delivery of active ingredients.

EYE FUSION TREATMENT 30mins. \$70

This treatment, which includes FibroMax C, revises dark circles and puffy or red eyes. It is suitable for most skin types, particularly reactive skins.

PICK ME UP TREATMENT 45mins. \$80

Designed for busy people with little time to spare, the DMK mini-facial can fit into your lunch hour!

MICRODERMABRASION TREATMENT 45mins. \$120

Microdermabrasion treatment is excellent for rejuvenating the skin as well as diminishing fine lines and the first signs of ageing.

DE-SENSITISING 75mins. \$135

De-sensitising is an anti-inflammatory treatment that is perfect for an over-reactive skin with redness, heat and itching. Exoderma Peel Plus is applied to gently remove the dead skin cells, followed by a hydrating mask to calm and replenish, and an infusion of nutrients to combat sensitivity.

DETOXIFYING AND PURIFYING 75mins. \$135

Designed for thick, coarse skin needing a deeper exfoliation before the optimal levels of health and functioning can be restored. Here we use Prozyme, an enzyme wash designed to break down and to digest dead skin.

Our treatments are suitable for women and men. To ensure that you achieve the best possible result for your skin concern, a full skin consultation is required before proceeding with any of our skin treatments.

A \$50 consultation fee is required at the time of booking which will be redeemed against your first treatment or products.

Peel and Skin Rejuvenation Treatments

Our Peels offer skin renewal and rejuvenation for all kinds of skin conditions on any area of the face and body. Minimal downtime with excellent results.

Peels are designed to deeply exfoliate the skin by removing redundant cells from the skin's surface and aiding in cellular regeneration.

HAND PEEL 45mins. \$110

Helps to diminish ageing and sun spots – rejuvenating the skin's appearance.

Combined with facial.....\$75

GLYCOLIC PEEL 45mins. \$120

Reduces sun damage, pigmentation and loss of elasticity. Promotes healthier skin.

MANDELIC ACID PEEL 45mins. \$135

Ideal for sensitive and hyper-reactive skin. Helps to effectively manage the symptoms of rosacea.

PYRUVIC ACID PEEL 45mins. \$140

Helps control the skin's excess oil flow and effectively reduces pore size.

SALICYLIC ACID PEEL 45mins. \$175

This peel helps treat acne due to its ability to penetrate the follicle. Significantly reduces inflammation and slows skin cell turnover.

NECK AND DECOLLETE PEEL

45 mins. \$195

Delivers Pyruvic acid and Lactic acid to the skin, providing the raw ingredients for hyaluronic acid synthesis to tighten and plump up the skin.

JESSNER PEEL 45mins. \$195

Improves the overall complexion of the skin, treating fine line, wrinkle and acne scarring.

BACK OR CHEST PEEL 60mins. \$195

Improves acne-prone skin on the back or chest. Decreases the over-production of sebum and bacterial colonisation.

EYE AND LIP PEEL 60mins. \$195

Specially formulated to treat the sensitive areas around the eyes and lips. The whole eye area including the lid can be treated, tightening loose skin and reducing the appearance of "crows feet". The mouth area is treated right to the vermilion border, minimising the appearance of fine lines on the upper lip and marionette lines at the corners of the mouth.

PHOTO REJUVENATION TREATMENT (IPL)

Improves the appearance of the skin, addressing freckles and skin pigmentation. Reduces pore size and redness by treating broken capillaries. Softens fine lines and wrinkles by stimulating new collagen production; has no downtime.

Sugaring Treatments for Hair Removal

Sugaring treatment for hair removal is a traditional technique that is known to have been used since 1900 BC. It is less painful, and causes less skin irritation, than waxing.

Sugaring paste is made from natural ingredients (sugar, water and lemon). The sugaring method extracts the hair and exfoliates the dead cell build-up, helping to free ingrown hairs. It is also safe to perform treatments on dry, itchy eczema and dry psoriasis.
