LIFE ON PURPOSE

DEFINE SUCCESS

what does it really mean
for you

The Process:

- fast forward 2 years
- write out your ideal average working day
- make it about your feelings, your thoughts & your attitude - not the 'stuff'
- how much do you work? where? who with?
in what capacity? what do you love about it?
who supports you?

The Process:

- spend some time really sitting with this - imagine yourself living it. make it powerful & real.
- now notice what the overarching feeling or attitude is - beyond the details.
- come up with your own personal definition of success that best sums it all up.
