## Common Issues When Redeeming Codes

Sometimes codes might not work, and here's why. The code may be expired, entered incorrectly (they are case-sensitive), or already redeemed. In rare cases, there might be a server glitch—if that happens, try leaving and rejoining the game to claim your rewards.

## When Are New Type Soul Codes Released?

There's no strict schedule, but new codes are usually released during major updates, holiday events, server milestones like reaching a certain number of visits, or special community giveaways.

## Maximizing Your Rewards From Type Soul Codes

If you want to get the most out of your rewards, plan ahead. Stack XP boosts with double XP weekends for maximum effect, save rerolls for when you unlock better abilities, and time your spins for events that feature exclusive cosmetics or powerful weapons.

## Is Using Type Soul Codes Safe?

Yes, using official codes released by the developers is completely safe. Be cautious of third-party "code generators" or suspicious websites that claim to offer unlimited codes—these are scams that could compromise your Roblox account.
