The Adelaide City Council invites engagement from the community about

# Tangkaira (Hurtle Square)

## Proposed New Public Toilet

### Project Summary

Public toilets provide an important role in creating a welcoming city that supports visitation and activation.

There is currently limited access to public toilets within the south-east quadrant of the City.

In 2015, community engagement on the possible provision of a public toilet in Tangkaira (Hurtle Square) was undertaken.

The purpose of this engagement is to seek community feedback on a proposed concept design and location for a public toilet. This project has yet to be approved by Council and is subject to funding.

Consultation closes **5pm, 14 March 2016**

Included in this consultation pack:

- Project Information
- Feedback Form
- Concept Plan

## Project Information

### Purpose

The purpose of this engagement is to seek feedback on a proposed concept design and location for a public toilet in Tangkaira (Hurtle Square) prior to seeking Council approval to proceed and allocate funding for the project.

### Background

There is currently limited access to public toilets within the south-east quadrant of the City.

In 2013 Council endorsed the Public Toilet Operating Guidelines which identified the important role public toilets play in supporting activation and visitation to public places, public health and safety. The Guidelines recommended public toilets should be placed at regular intervals across the city.

Following requests from local residents in 2015 asking for consideration for public toilets to be provided, initial consultation was undertaken with the wider community on the possible provision of a public toilet in Tangkaira (Hurtle Square).

The response to this engagement revealed 32% of respondents supported the proposal, 47% 'did not mind', whilst 21% did not support the plan. Of those who did not support the proposal, many noted that should a toilet be considered, they would prefer it to be located in the vicinity of the Pulteney Street R1 bus stop.

### Benefits of the project

The proposed location was selected as it provides good access to existing transport links (including bus, cycling and pedestrian) and its proximity to existing lighting and services

The design intent was to maximise safety for users whilst providing screening to minimise visual impact on the Square.

### Timeline

The project will be subject to obtaining Council approval, allocation of budget and all statutory approvals. If successful, it is anticipated that the project will form part of the 2016/17 capital works projects.
