

Bridge Terrace Public Toilets

Council is seeking community feedback on plans to replace the public toilet block and change rooms located near the end of Bridge Terrace in Victor Harbor.

What is being proposed?

At the end of Bridge Terrace there is currently a change room facility and separate toilet block. Both of these buildings require an upgrade to ensure they meet the needs of our community.

Council is proposing to replace both of these facilities with one toilet facility in the location of the change rooms. This will help address anti-social behaviour issues by moving the facility to higher ground. As a part of the project the old toilet block will be demolished.

The new toilet block will be a similar design to what has been installed at Soldiers Memorial Reserve. It will include:

- One disabled toilet
- Two ambulant toilets
- One male toilet
- One female toilet.
