

Proposed initiatives

Day use/picnic area

- Picnic area expanded east of the boat ramp
- New picnic benches, BBQ and shelter
- Universally accessible path and recreation
- Accessible fishing platform installed
- Change to road layout to provide a large vehicle free zones for recreation

Swimming

- Fibregate steps to provide stable access points to the water for swimming
- A swimming pontoon located offshore (dependant on safety checks)

Erosion control

- Log armouring to stabilise areas of eroding river bank
- Revegetation and restrictive barriers to establish vegetation
- Boat tie up points provided to reduce boat storage related erosion

Public Amenities

- Upgrade public amenities
- Decommission leach drains to enable new carpark entry access

Boat ramp

- New boat ramp to provide greater separation between boating and swimming areas
- Boat ramp designed to cater for small to medium vessels
- Carparks will retain earth surface /informal nature
- Broad steps installed either side of the ramp for boat tie up and easy water access
- Existing boat ramp retained for canoe launch and storage

Example of swimming steps

Example of pontoon

Existing boat ramp for canoe launch
