

# OUR VISION FOR ADELAIDE

***Adelaide is a smart, green, liveable, boutique city full of rich experiences.***

As the capital city of South Australia, Adelaide has a vital role to play in shaping the future of our state.

We face unprecedented changes arising from major global, national and local trends. Reassuringly, our proven record of creativity, innovation and social transformation sees our city well placed to lead the state in meeting these changes.

Our plan is to enrich Adelaide's lifestyle and boost its growth by becoming one of the world's smartest cities with a globally connected and opportunity rich economy.

We will be one of the world's first carbon neutral cities and a global leader in sustainability and responding to environmental change.

Adelaide will always be a distinctively unique capital city that supports a balanced lifestyle and a strong community. Our authentic and diverse range of experiences will be internationally renowned.

Achieving our vision will build upon the many things people love about Adelaide and help ensure our city and state thrives into the future.
