Curiosity & Challenges

Gamers are explorers. Finding game glitches is a challenge, and using a glitch to unlock free gems becomes a badge of honor in the community.

Types of Glitches That Can Offer Free Gems

1. Server Lag Exploits

Brawl Stars servers occasionally face lag or latency issues. Some players have reported earning duplicate rewards, including gems, during these anomalies.

2. Account Sync Errors

Using different logins (Google Play, Supercell ID, Facebook) has led some users to duplicate account data, unintentionally reclaiming old gem balances.

3. Event Reward Loop

During Brawlidays or Lunar events, a server loop glitch caused reactivation of reward tiers, leading to additional gems without further gameplay.

4. Box Opening Bug

There was once a bug where opening multiple boxes at once during a server reset resulted in rewards being duplicated, including gems.

5. Ad-Watch Bonus Hack

Some players use emulator scripts or VPN geo-location changes to force the game to show ads, thus unlocking extra gem-related bonuses.

How to Attempt the Brawl Stars Gem Glitch (2025 Instant Update)

☐ Disclaimer:

Supercell does not allow third-party interference or abuse of glitches. This guide is for educational and entertainment purposes. Misuse may lead to a ban.

Method 1: Multi-Device Sync Bug

Step-by-Step Guide

Log in on Device A with your main account.

Begin playing a match or open a Mega Box.

While this is ongoing, log into the same account on Device B.

The server may desync and attempt to recover game state.

In certain cases, you will see duplicate reward pop-ups, including gems.

Notes:

This is a rare glitch and may not work post-patch.

Works best when attempted during update rollouts.

Method 2: Language Loop Glitch

How It Works

Open Settings and change the language to Japanese.

Navigate to the shop and wait for 1–2 minutes.

Return to Settings and switch back to your native language.

Open the shop again and scroll quickly.

Some users have reported free offer refreshes showing gem bonuses.

Method 3: Skin Trial Unlock

What You'll Need

A new or alternate account.

Access to trial skins.

The Steps

Access a trial skin through a limited event.

During the trial, navigate to the shop and click on "Brawl Pass."

Repeatedly tap the claim button for the free Brawl Pass tier.

If timed with a skin refresh, the game might misallocate rewards—occasionally gems.

Method 4: VPN Ad Force Trick

Requirements

Android emulator (Bluestacks or Nox)

Guide

Set the VPN location to the Philippines or India.
