

Our Resilient Coast. Our Future.

Between March and June we are focussed on building our understanding of local coastal processes and listening to your experience and reflections about living near our coastline. Read on to find out about what else we have been up to and where you can meet us to have your say.

Understanding local coastal processes

We are currently refining the modelling of erosion potential along the Sunshine Coast Regional Council coastline. Results will inform an update of the Erosion Prone Areas, previously mapped by the Queensland Government. The update will also improve our understanding of areas likely to be impacted by future coastal hazards.

Help decide what a resilient coast will look like in the future

The project team are currently out and about talking with a wide range of government, community and local business stakeholders.

We are calling on our community members to share your own reflections and views on what events have shaped our coastline and what you think a resilient coast should look like in the future.

How can I get involved?

If you want to find out more and be kept up-to-date with *Our Resilient Coast. Our Future.* and the development of the strategy:

- **Subscribe** to receive regular progress updates and notifications of public meetings by going to our website haveyoursay.sunshinecoast.qld.gov.au/our-resilient-coast, entering your email address and clicking on the 'Subscribe' button.
- **Ask** the team questions about coastal hazards and the process by emailing ourresilientcoast@sunshinecoast.qld.gov.au
- **Contribute** by joining us at the community events to share your experience and views and help shape the strategy.

There are lots of upcoming events to get involved in. These events will provide opportunity to

- Share your thoughts, experiences and photos
- Learn more about coastal processes
- Try out our wave tank.

Upcoming events include:

When	Time	Where
2 June	9am - 5pm	World Environment Day Festival, Cotton Tree Park
3 June	6 - 8pm	Coolum Surf Club
4 June	4 - 6pm	Outside Maleny IGA
11 June	11.30am - 1.30pm	Caloundra Council Admin Building forecourt, 1 Omrah Ave
11 June	7 - 9pm	Mooloolaba Surf Club

See the [website](#) for more events over June and July, and look out for us on your local foreshore.

If you're not able to get along to one of our events, you can also get involved and share your thoughts through our [values and experiences survey](#).

Your responses will help inform studies on the risk (likelihood and consequence) of coastal hazards and the discussion on appropriate ways to manage coastal hazards in the future.

Community Advisory Group update

Expressions of interest to join the *Our Resilient Coast. Our Future.* Community Advisory Group have now closed. In May, we will be hosting our inaugural Community Advisory Group meeting. The Group will help guide the strategy development and ensure community views and ideas are captured.
