TightSkin Program Treatment Information Sheet

What is the TightSkin program?

You will have a unique treatment plan devised just for your body to tighten and smooth your skin using state-of-the-art technology.

We can work on problem areas for a special occasion, or simply keep your skin tight and supple as you age with regular treatments.

Effective TightSkin technology

- ThermiRF
- UltraformerIII
- Portrait
- Secret RF
- Venus freeze
- Slimspec

Our technology is proven, effective, and doesn't hurt a bit.

How soon will I see results?

Skin tightening treatments work both immediately, and into the future, as the treatment has stimulated the cells that produce collagen and elastin fibres in the skin.

Multiple treatments over your lifetime will be required in an ongoing process as you age, since skin eventually naturally sags.

TightSkin solutions work to:

- Tighten skin
- Smooth skin
- Reduce cellulite
- Solve baggy or loose skin problems
