

Week 2

# WINTER SCHOOL HOLIDAYS JUL 2026

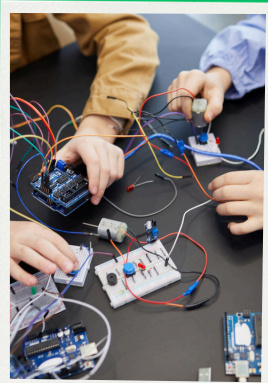

MONDAY  
13th Jul

TUESDAY  
14th July

WEDNESDAY  
15th July

THURSDAY  
16th July

FRIDAY  
17th July

## Electrickery

### Spark Your Curiosity

This class blends the wonders of science, technology and artistic expression!

Build bots, explore squishy circuits, light up inventions, discover how creativity, science, engineering, and imagination work together.

## Principles of Animation

### Discover The Magic Behind Moving Pictures!

We'll explore the fundamental principles of animation through hands-on projects, storytelling, character design, and creative experimentation.

## About Time

### The Time Machine is Calling Again!

Climb aboard our time machine as we journey to fantastical worlds beyond time itself.

Visit Wonderland enjoy a curious tea party, create melting clocks and discover places where imagination leads the way!

## Once Upon a Sketchbook

### A Workshop Where Stories Come Alive!

Create unforgettable characters, invent fantastic worlds, draw comics, make zines, learn book binding, watercolours landscapes and bring your stories to life.

## Stitch, sew, and create

### Threads of Imagination

A beautiful textile arts day where we'll explore sewing, doll-making, fabric collage, and creative design.

Experimenting with colour, texture, pattern, while creating soft sculptures, handmade dolls, and fabric landscapes.

5 to 11 years old **Kids Programme**

Artrageous Explorers (5-8)

Artrageous Creatives (9-11)

Each day's theme is thoughtfully adapted for different ages — so younger explorers and older creatives each get their own artistic challenge, all under one roof. Painting, Drawing, 3D Making and Construction stations are always available, and our scheduled activities may grow and change throughout the day in response to the children's own curiosity and ideas.
