KUBS

Kids Understanding Basic Skills (KUBS) is designed for kids 2-5 years old and focuses on mastering fundamental movement skills critical for early development.

Built on core values of fun, health, and inclusion our expert-designed program ensures a nurturing and engaging environment.

Our comprehensive program targets key skills such as balance, locomotion, and object control and aligns with the Early Years Framework and the National Quality Standards. We also provide detailed lesson plans and personalised assessment reports to monitor child progress. Boost your centres retention of children through our engaging and fun activities!

1

Enhance Motor Skills

Focus on essential skills like running, jumping, throwing, and catching.

2

Boost Concentration

Activities designed to improve attention spans and cognitive functions.

3

Foster Social Skills

Encourages teamwork, communication, and a sense of community among children.
