

Nex Gen weekly plans

June - July

Sessions are every Tuesday at 3:30pm - 5:30pm

2nd June

Join us for a fun-filled session with a special guest as we build and race cars together!

9th June

Join us as we plan and design exciting entertainment for the summer festival using robots and LEGO creations!

16th June

We will be building our robots and LEGO cars in preparation for coding activities and live challenges to use for the festival!

23rd June

We will continue building and improving our robots and LEGO cars, We'll also add new features, including movement and speech, so the robots can come to life for our festival!

30th June

We will plan exciting activities for our creations, including a robot race and a robot dance which will included in the festival!

7th July

In preparation for the festival, we will gather everything we have made and spend time practicing and refining our creations so they are ready to show!

**SUMMER
TIME**

14th July

Date for the festival is TBC!
