

GIRL POWER WORKSHOP

ROBOT DANCE PARTY!

For Girls aged 7-16yrs

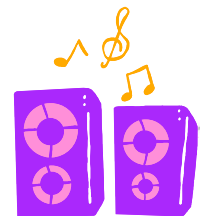

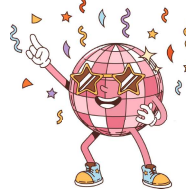

4pm-6pm

Thursday 15 October 2026

Cost: \$20

@STEAM-ED, 671 Cameron Road, Tauranga

*Create your own music on BandLab
and then teach a robot to dance to it!*

It's robot party time! But first we need you to create some music! We will teach you how to create sweet music on BandLab, and once that's done, we will help you teach your robot to dance to it!!

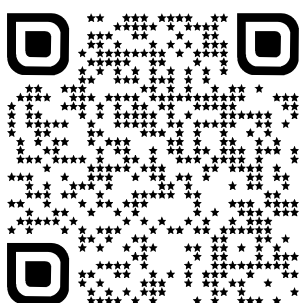

Don't worry - no previous music or coding experience is required.

What to Expect:

- Create your own music with full support and instruction from our team
- Learn to programme a basic robot to 'boogie' to your music
- Decorate your robot to party!
- If you choose you can collaborate with others and synchronise your robot dance moves!

Empowering environment led by passionate mentors, to encourage more females into STEAM based activities!

This workshop is perfect for girls aged 8-16 who are curious, creative, and ready to build the future with style.

Let's have some fun, create dance moves for a robot to your original music, and show the world what girls in STEAM can do — with flair!
It's guaranteed that the girls get to rule this awesome project!
