

Session 1 Timetable
Dec 14th to Dec 19th

Soap and Candles
Monday

Gift making galore! The day will start with a session of soap making from scratch. Tamariki will then pour their own beeswax candles into a mould of their choice. Once the candles have set after a pizza oven lunch, the children can turn them out of the moulds to decorate with layers of colour, or embellish the outside of their jar.

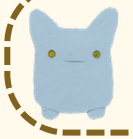

Fridge Magnets
Tuesday

Make a treasured christmas gift. Tamariki start the day gently with a freepainting session using the wet-on-wet technique. Once the paintings are dry they will be cut up and fitted to a durable acrylic fridge magnet case.

Christmas Baking
Wednesday

Nothing says Christmas like home baking. Tamariki will spend the day baking a variety of christmas cookies, then decorating and embelling jars to fill as a gift. Naturally we will need to quality check cookies during the day, so please don't send your child if they don't like sugar. All cookies will be nut free and a gf option will be available.

Franks
Thursday

Have fun designing your 'FRANK' in the morning. Once designed, bring your frank to life using oven-bake clay. After our home-made lunch from the pizza oven, we will develop our sketches, ready for an afternoon of print-making and rubbings!

Eco Dye and Cyanotype
Friday

The day starts with a nature walk to forage for materials. After morning tea we will experiment with ecodying and sun photos aka cyanotyping. Finally we can make cards and bookmarks with rubbings and linocut stamps
