

Session 4 Timetable
Jan 25th to Jan 30th

Franks Monday

Have fun designing your 'FRANK' in the morning. Once designed, bring your frank to life using oven-bake clay. After our home-made lunch from the pizza oven, we will develop our sketches, ready for an afternoon of print-making and rubbings!

Flight Tuesday

Kites, paper planes and all things aerial. Calling all aeronautical engineers! We will make old fashioned kites with tissue paper and dowel, paper planes until we run out of paper, play parachute games galore and finish the day with a bit of a challenge, test flying our creations.

Drama Day! Wednesday

Our version of the 24hr film festival! Tamariki have the whole day to create their own play as a group or individual. The morning will focus on creating a script, which will be workshopped after morning tea. There will then be an opportunity to create/find costumes and a basic set from a dress up box, the afternoon will be spent the watching great theatre together!

Woodwork Thursday

Bring your own whittling knife, safety gloves are provided. Learn basic whittling techniques to make a tiny gnome or bird. Precut animal shapes are then provided for the children to finish with knives, dremel and sandpaper. Children have the option to oil or paint their finished creations.

Harakeke Friday

The day starts with a nature walk to forage for harakeke and learn the tikanga around this precious resource. Tamariki will learn to prep the flax before use, then weave a basic four sided kete or tipare. Due to the complexity of this process numbers are strictly limited.
