Mondays

Conservation NZ

It's time for your child to journey across New Zealand and learn about its incredible biodiversity, striking landscapes, and unique atmosphere. Every week we will learn from New Zealand's biggest conservation groups such as Predator Free New Zealand, NIWA, and Zealandia on what makes Aotearoa's environment so special. Get ready to make chew cards, learn to identify native birds, and perform science experiments. Your mini conservationist will practice hand-motor skills, team-building, and increase their creativity by learning through the environment.

Tuesdays

Upcycled Art

One person's trash is another person's treasure in our Upcycled Art module! We will challenge young innovators and creators to build their own works out of recycled materials and rubbish. Each week will explore a different theme, from nature, to video games, or off into outer space!

Wednesdays

Full STEAM Ahead!

Ignite your child's curiosity and creativity with Full STEAM Ahead! This hands-on program explores the world of Science, Technology, Engineering, Art, and Math through fun, interactive projects and experiments. Each week, students will dive into thrilling activities like building structures, experimenting with chemical reactions, and solving engineering challenges. With guidance from passionate instructors, your child will develop critical thinking and problem-solving skills while having a blast. Full STEAM Ahead! is the perfect place for young minds to explore, create, and innovate.

Thursdays

Game Show

Get ready to buzz in, shout out and cheer loud as we have our very own Y-Kids Game Show! Each week we will be taking on a different game show format from Minute to Win it, to Trivia Challenges, Jeopardy and more. Kids will laugh, have fun with their friends and maybe learn something along the way

Fridays

No Oven Cooking

Let your child discover the joy of No Oven Cooking! Each week, young chefs will get hands-on experience making simple, fast, and delicious treats. From fruit kebabs to mug cakes and chocolate covered strawberries, they'll gain valuable experience in the kitchen learning how to measure, mix, and clean. No Oven Cooking is the perfect recipe for creativity, learning, and most importantly, a whole lot of fun! Ready, set, cook!

Energetic games designed to support fundamental movement, teamwork and being on the move in a supportive environment.

A range of activities which encourage self expression and to explore new mediums and techniques.

Preparing our tamariki with diverse skills to navigate their way through their development and their experiences.
