

DAIRY FREE CHEESE FOR EVERY PLATTER AND GRAZING TABLE!

Noshing provides dairy free cheese lovers an authentic range of gourmet cheeses made from natural ingredients that don't compromise on flavour and stay as close as possible to traditional cheese making methods.

This means we press our almond milk curds, age our cheeses and even use a cheese cave for the mould ripening of our incredible blue vein cheese.

Noshing is a proudly family owned and operated business and is dedicated to handcrafting 100% cruelty free cheeses that look, taste and smell like everyone's favourite cheeses from around the world, with the aim of becoming Australia's number one dairy-free choice for every cheese platter and grazing table.

01. Marinated Feta

This Persian inspired feta is second to none with a deliciously creamy texture that's brought to life in a marinade of olive oil, peppercorns, chilli and fresh herbs.
