What we do?

Point of Sale

State of the art, cloud based technology that manages both in-store and online orders.

Branded Website and App

High speed, SSL-secured, Google SEO Optimised, and custom branded website.

Online Ordering

Offer exceptional online ordering experience for your customers. Pick up, delivery, dine-in.

QR Code Table Ordering

Let customers order and pay instantly from their table.

Everything you need for your restaurant.

Google Food Ordering

Integrate directly with Google to expand your customer base and increase sales.

orderfood.google.com

Commission-free Deliveries

Get on-demand delivery drivers without paying commissions to third-party drivers

Loyalty Program

Issue automated digital loyalty card and reward the regular customers.

Table Reservations

Manage table bookings and special requests right on your website.

Hardware

Bring your own hardware, or talk to us to get state-of-the-art hardware at supplier cost.

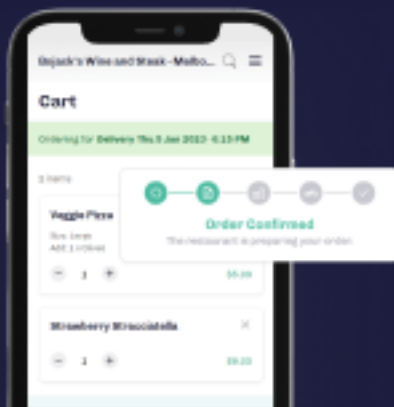

Get them all or just the ones you need.

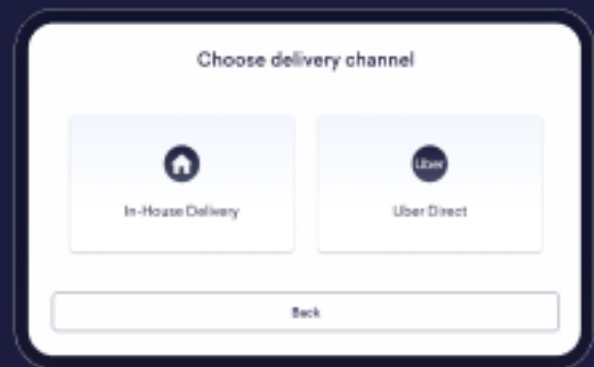

GET COMMISSION-FREE DELIVERY ORDERS

Here's how it works:

1. Customer orders on your website, or over the phone.

2. Store accepts order and Uber driver requested

3. Uber driver arrives to collect the order

4. Order delivered to the customer

Join over 350 restaurants who have made the switch to take control of their entire front-of-the-house operations. Plus, save heaps by cutting commissions paid to third-party delivery services.
