RCM SWEEPER RANGE

Brava

	800	900	1000
Powered:	Battery		
Coverage:	3,120	3,480	3,800 m ² /hr
Sweep Path:	780	870	950 mm
Filter Area:	2.25	2.68	3.02 m ²
Gradient:	18	18	18%
Hopper Capacity:	40	51	60L

Slalom

Smallest of the RCM Rider Range, Available in Battery
Front-Mounted Vacuum Cleaner Optional
Second Side Broom Standard

Coverage:	6,050 m ² per hour
Sweep Path:	1,100 mm (2 sides Brm)
Filter Area:	3.00 m ²
Gradient:	12%
Hopper Capacity:	50L

Atom Plus

Compact Sweeper, Available in Battery, Petrol or
LPG
Second Side Broom Standard

Coverage:	6,875 m ² p/hr
Sweep Path:	1,330mm (2 sides Brm)
Filter Area:	6.00 m ²
Gradient:	18%
Hopper Capacity:	95L

RCM RIDER SWEEPER

R850E

Mid Size Sweeper, Available in Battery

Coverage:	8,340 m ² p/hr
Sweep Path:	1,390 mm (2 sides Brm)
Filter Area:	6.00 m ²
Gradient:	16–18%
Hopper Capacity:	120L

Second Side Broom Standard

Boxer Plus

Available Petrol, LPG, Diesel and Battery
Power Steering Standard

Coverage:	12,400 m ²
Sweep Path:	1,550 mm
Filter Area:	9.2 m ²
Gradient:	16%
Hopper Capacity:	240L

Second Side Broom Optional Extra

Mille

Available Petrol, LPG, Diesel and Battery
Power Steering Standard

Coverage:	19,980 m ²
Sweep Path:	1,700 mm (2 sides Brm)
Filter Area:	13.5 m ²
Gradient:	18%
Hopper Capacity:	350L

Second Side Broom Optional Extra

RCM SCRUBBER RANGE PEDESTRIAN & RIDER

BIT

Available in Battery

Coverage p/hr:	1,540 m ²
Scrub Path:	385 mm
Squeegee Width:	450 mm
Tank Size:	14L
Voltage:	24V

Byte II

Available in Battery

	531T	612T
Cleaning Width:	530 mm	610 mm
Squeegee Width:	745 mm	745 mm
Number of brushes:	1 disc	2 discs
Solution Tank:	45L	45L
Recovery Tank	48L	48L
Voltage:	24V	24V

Mega II 802D

Available in Battery

Coverage p/hr:	4,000 m ²
Scrub Path:	800 mm
Squeegee Width:	965 mm
Tank Size:	90L
Voltage:	24V

RCM SCRUBBER RANGE PEDESTRAIN & RIDER

Giga 802

Available in Battery

Coverage per hr:	6,000 m ²
Scrub Path:	800 mm
Squeegee Width:	965 mm
Tank Size:	120L
Brush Type:	Disc
Voltage:	24V

Jumbo 962

Available in Battery

Coverage per hr:	4,300–4,700 m ²
Scrub Path:	860–950 mm
Squeegee Width:	1,100 mm
Tank Size:	180L
Brush Type:	Disc or Roller
Voltage:	36V

Tera 1102 Combination Sweeper/Scrubber

Available in Battery

Coverage per hr:	8,000 m ²
Scrub Path:	1,100 mm
Squeegee Width:	1,200 mm
Tank Size:	280L
Brush Type:	Disc
Voltage:	36V

RCM Sweepers

Boxer

the sweepers with hydraulic dust free emptying for cleaning of inside and outside areas

The Boxer offers 2 models - 1 with a 240 lt hopper and Super Boxer with a larger 300 lt hopper capacity. The Boxer is built on a strong chassis with high performance. Boxer and Super Boxer are made to work hard when conditions demand maximum performance

Suction on the hopper

Protecting the operator, the environment and the machine. Removes dust raised during hopper emptying that could be harmful to the operator and prevents dust entering the engine.

The large filter

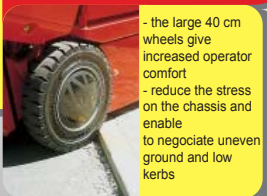

- boxer has a large filtering capacity
- it doesn't block
- it doesn't suffer from damp and humidity has a long life and can cope with all types of dust experienced in today's environment

Rear hopper

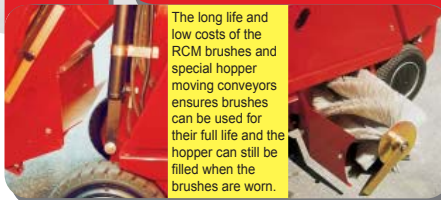

Gives higher capacity with lower costs. The hopper is situated at the rear of the machine and the operator situated at the front giving a safer unobstructed view. This enables the capacity of the hopper not to be limited by the side brushes and can be completely filled because the debris enters the hopper from the top.

The large wheels

- the large 40 cm wheels give increased operator comfort
- reduce the stress on the chassis and enable to negotiate uneven ground and low kerbs

Low running costs

The long life and low costs of the RCM brushes and special hopper moving conveyors ensures brushes can be used for their full life and the hopper can still be filled when the brushes are worn.

Perfect visibility

- with the operator situated at the front of the machine the Boxer is extremely easy to operate and steers like a car
- with front wheel steering giving high manoeuvrability
- this also enables good all round visibility and perfect safety for the operator.

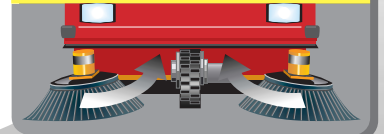

Strong chassis

- the thick steel reinforced chassis
- on which the machine is built
- gives good protection impacts
- reducing damage to any mechanical parts

Suction on side brushes (RCM patent)

- the side brush vacuum " DUST BUSTER " eliminates the dust caused by the side brushes, allowing the machine to be used with both the main and side brushes even in dusty conditions

Duemila Total Steel

Available Petrol, LPG, Diesel and Battery
Power Steering Standard

Coverage: 20,900 m²/h
Sweep Path: 1,900mm (2 sides Brm)
Filter Area: 16 m²
Gradient: 16%
Hopper Capacity: 470L

Second Side Broom, Air Con Cabin, Swing Arm are
Optional Extras

Macro M7

RADIATORI ACQUA-OLIO IN ZONA PROTETTA DALLE POLVERI

AIR AND OIL COOLER PROTECTED AGAINST DUST

MARMITTA CATALITICA

CATALYTIC MUFFLER

APERTURA SPORCO GROSSOLANO

OPENING FOR BULKY WASTE

TELECAMERA PER BOCCA ASPIRANTE (OPTIONAL)

SUCTION VENT CAMERA

RUOTE MOTRICI POSTERIORI

REAR DRIVE WHEELS

SPAZZOLE LATERALI RIENTRANTI

SWINGING SIDE BRUSHES

ACCESSORI PRINCIPALI OPTIONAL

ARIA CONDIZIONATA (OPTIONAL)

AIR CONDITIONING (OPTIONAL)

VOLANTE REGOLABILE CON SERVOSTERZO

ADJUSTABLE STEERING WHEEL
WITH POWER STEERING

OTTIMA VISIBILITÀ

PERFECT VISIBILITY

PORTIERE IN VETRO

GLASS DOOR

SEDILE MOLLEGGIATO

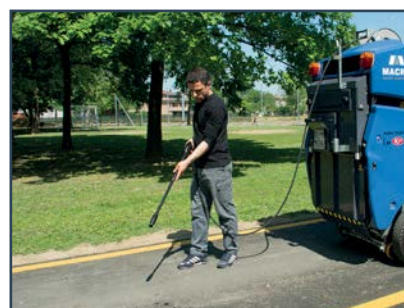

SPRUNG SEAT

TUBO ASPIRANTE
VACUUM HOSE

SPAZZOLE ANTERIORI
FRONT BRUSHES

SISTEMA DI LAVAGGIO AD ALTA PRESSIONE
HIGH PRESSURE WASHING SYSTEM

Coverage:	17,000 m ² /hr
Max Cleaning width:	2,350 mm
Hopper Capacity:	800L
Engine—Power:	Kubota Diesel, 4 Cylinder
Dimensions:	297 x 130 x 199 cm

Sweepers Australia P/L is a 100% Australian-owned company, dedicated to providing unparalleled service and competitive prices for a range of sweeping and scrubbing equipment, with national representation and distribution facilities, throughout Australia.

Sweepers Australia is the sole importer and distributor for the RCM range of sweeping and scrubbing equipment, with allegiance to the RCM brand dating to the 1980s.

Nilfisk products complement our range, catering for the larger combination sweeping/scrubbing units, industrial vacuum cleaners and industrial pressure washers.

Sales are backed up by our NO CHARGE site surveys, comprehensive service and spares department, and experienced staff willing to meet the challenge.

Customer satisfaction is our priority.

Fully-equipped service vehicles, experienced service technicians, large stockholding of consumables and spare parts minimise downtime, and result in harmonious customer/supplier relationships.

Importantly, our service department covers the total spectrum, catering not only for RCM equipment, but equipment of many other major brands.

Sweepers Australia is a “one stop” sweeper/scrubber equipment supplier and repair centre, where our dedicated skills allow you, our customer, to select a product or service, which will meet your requirements, with confidence.

As part of the “one stop” facility, Sweepers Australia offer equipment **rental FINANCE packages**. These packages are structured in-house, providing flexibility and for applications to be processed with little delay.

Sweepers Australia has recognised the value disruption which the sweeping/scrubbing equipment at various sites can cause.

To this extent, we have committed ourselves to large stockholdings of:

- Brooms, Side Brushes, Panel Filters, Dust Skirts (oil and detergent-resistant to suit various environments) covering various brands of manufacturers.
- Scrub brushes of various grades (Tynex to soft nylon), Squeegee Blades and a full range of scouring pads.
- Vac motors, starter motors, radiators, batteries, engine spares to suit selected ranges... the range goes on.
- Put Sweepers Australia to the test—give us a call and evaluate our response.

Sweepers Australia thanks you for the interest shown in our company, and welcomes you to join our family of satisfied customers, where we are all winners.
