ABOUT US

We are proudly Australia's leading seafood producer with more than 35 years of aquaculture experience. Our focus on quality and sustainability has underpinned our reputation as a global pioneer and industry leader. Our farming practices are certified against third-party sustainability standards. Our passion is to sustainably feed the generations of tomorrow.

We are Australia's largest producer of Tasmanian Atlantic Salmon and Australian Black Tiger Prawns. We have recently expanded our seafood portfolio and introduced to the market Australia's only ocean grown Barramundi farm from Cone Bay, Western Australia.

We are focused on delivering the Foodservice industry with a range of Australian salmon, prawn and barramundi products to delight your customers.

Tassal is proudly Australia's largest producer of Tasmanian grown Atlantic salmon. Our home is Tasmania, a beautiful island with cool, clean waters and a rich maritime history. Our ambition to produce healthy, fresh Atlantic salmon began more than 35 years ago.

At Tassal, we are proud to provide high quality, world class tiger prawns with Australia's largest and most sophisticated prawn farm network. Grown in the warm waters by the Tropic of Capricorn, our three farms are located on the coastline of Queensland and Northern New South Wales.

Introducing Tassal's newest addition to our seafood portfolio – Cone Bay Barramundi! Australia's only ocean grown barramundi. Our barramundi is responsibly grown in the warm and pristine waters of Cone Bay, Western Australia.

SALMON

Our high-quality Tasmanian Atlantic salmon is carefully selected and handled with the utmost care. Tassal provides customers with a healthy and delicious protein choice, whatever the occasion, with a range of fresh and smoked salmon products.

PRAWNS

At Tassal we produce only the highest quality Australian Tiger Prawns, popularly known for their versatility, health benefits and incredible taste.

Harvested, processed and packed at our onsite facilities within a matter of hours to deliver optimal freshness.

Our Products

Tassal Prawns

Fresh Cooked Tiger Prawns 10 KG

Tassal fresh cooked prawns are usually available November to April (season dependent) and offer a unique crisp texture, sweet flavour and vibrant colour with distinctive coral stripes.

Frozen Cooked Tiger Prawns 3 KG

Tassal frozen cooked prawns are available all year round and are ready to consume once thawed. Individually snap frozen our cooked prawns offer a unique crisp texture maintaining their fresh umami flavour so consumers can enjoy quality prawns any time of year.

Frozen Raw Tiger Prawns 3 KG

Tassal frozen raw black tiger prawns are available throughout the year and offer the most versatility when it comes to cooking. Cooked in a matter of seconds with the ability to retain flavour, texture and taste they suit a variety of cuisines. Our prawns have an easy to peel shell and turn an impressive bright orange once cooked.

Available in the following size grades

Tassal prawns are carefully graded by how many prawns there are per pound. To work out how many prawns per kilo, simply double the grade. Remember the smaller the number, the bigger the prawn.

Colossal	Giant	Jumbo	X-Large	Large	Medium	Small	X-Small
U6	U8	U10	10/15	16/20	21/30	31/40	41/60

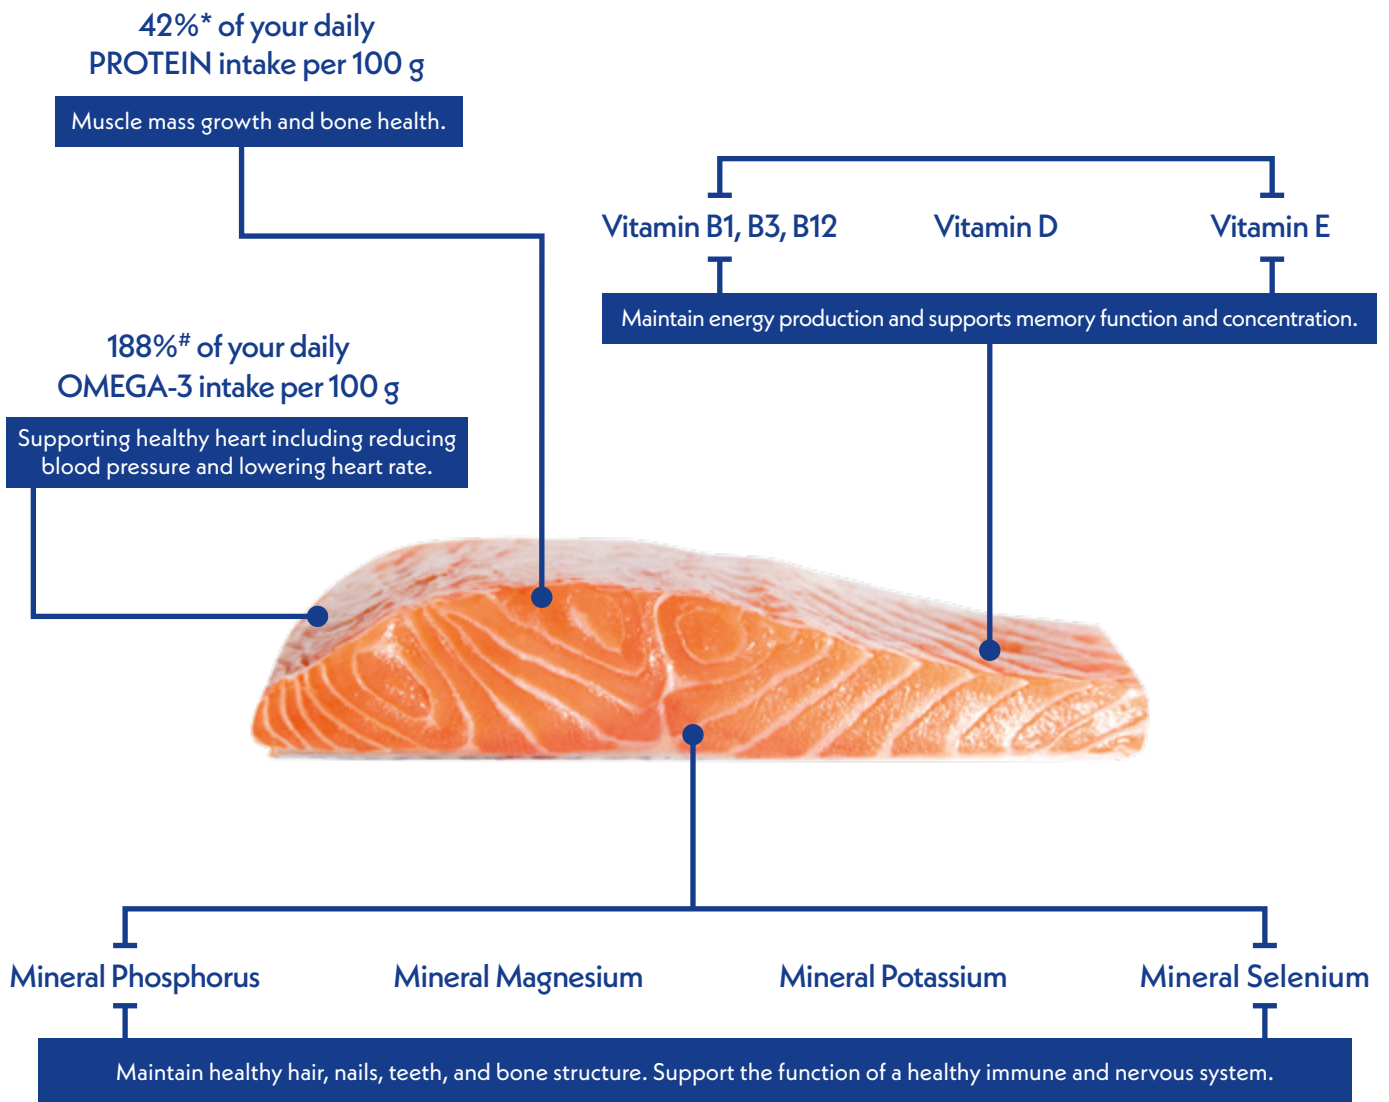

Nutrition

Salmon and Prawn - The natural super food

There's no better protein than Atlantic salmon and Australian prawns to provide these essential nutrients needed for a healthy balanced diet.

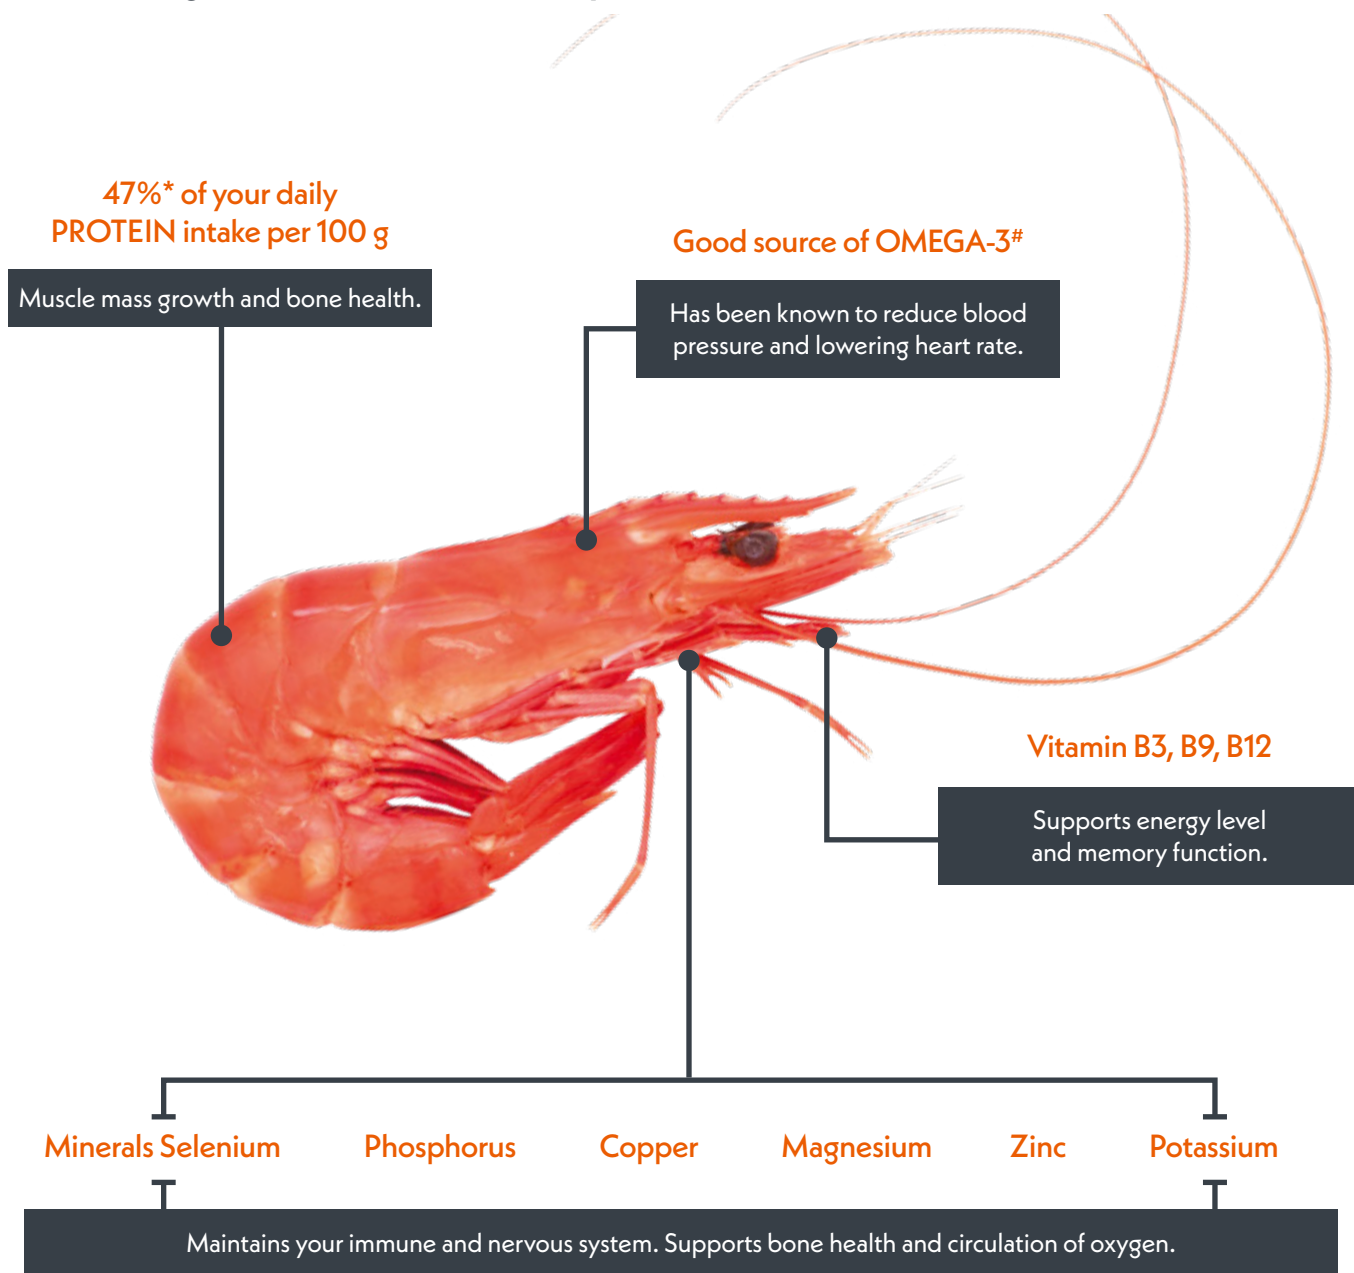

Tasmania grown Atlantic Salmon

Tassal is proud to produce a healthy and nutritious, sustainable protein that contains essential nutrients that support your health and wellbeing in a variety of ways.

Australian farmed Tiger Prawns

Tassal prawns are proud to produce nutritionally rich Australian Tiger Prawns; a good low fat source of protein.

* Percentage Daily Intakes are based on an average adult diet of 8700 kJ. Your daily intakes may be higher or lower depending on your energy needs.

Based on the National Heart Foundation of Australia's recommended adult consumption.

Responsible farming & how we care

As farmers, we take pride in what we produce and how we produce it. We are committed to providing Australians with responsibly sourced Australian grown salmon, barramundi and prawns.

As global leaders in sustainability, we know that responsible aquaculture is key to meeting future global seafood demand, so we ensure that all our salmon and prawn farms are independently certified to third-party sustainability standards.

Our focus on sustainability has been the basis of developing programs around food safety, environmental management, animal welfare and quality. This has established our reputation as a successful global aquaculture pioneer.

Proudly Australian grown salmon, barramundi and prawns

Salmon, barramundi and prawn feed is formulated by nutritionists and contains vitamins, minerals and no growth hormones

Structured smart feeding program throughout the salmon and prawn life cycle to ensure quality and wellbeing

We are the only Australian salmon producer to hold ASC (Aquaculture Stewardship Council) certification.

Tassal is also accredited by GLOBAL G.A.P, which provides assurance our seafood has been produced using safe, socially and environmentally responsible farming practices

Committed to providing Australians with responsibly sourced, high quality salmon and prawns

Aquaculture is one of the most efficient forms of protein production with a low carbon footprint

Members of the Australian Packaging Covenant (APCO) to reduce, reuse and recycle

Support local economies by providing thousand of regional jobs

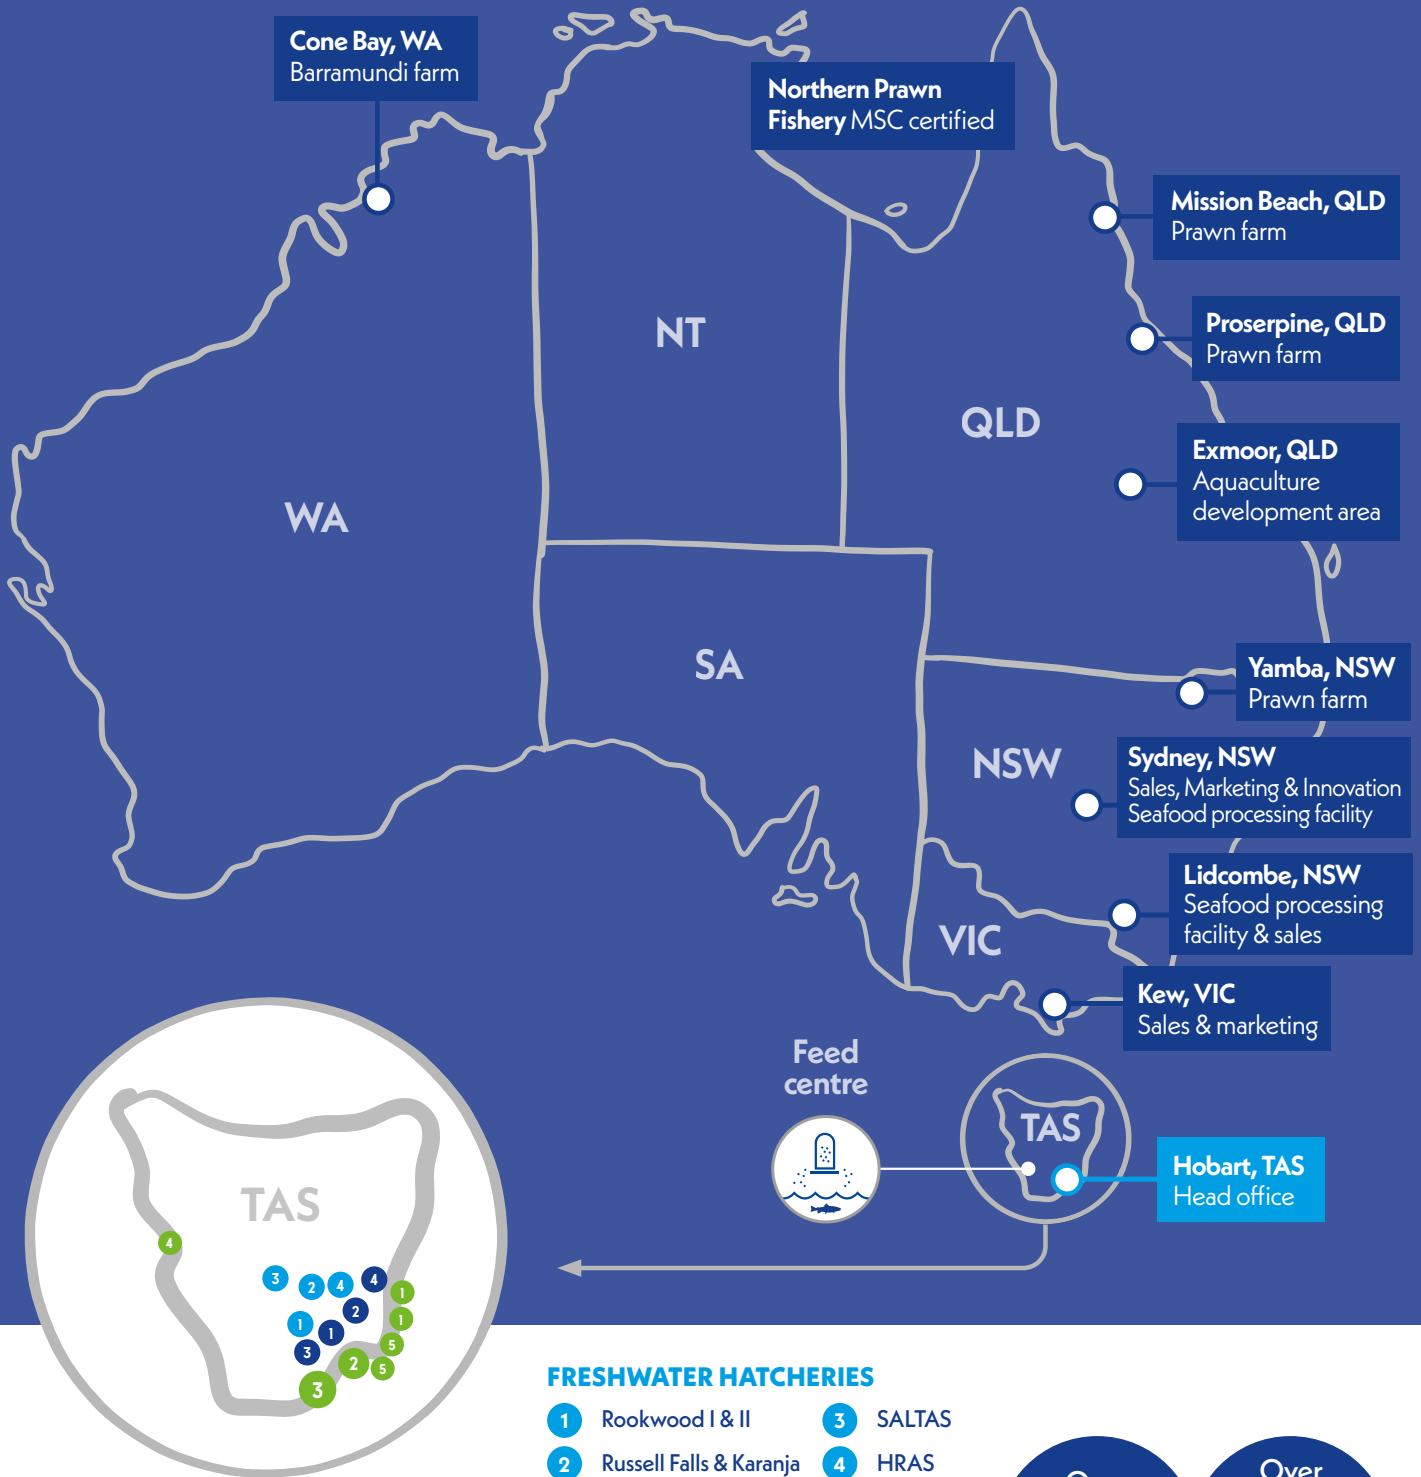

In 2022 we ranked #1 as Australia's most sustainable protein producer and #8 in the world by the FAIRR initiative

Please see our latest Sustainability Report for more information

Our footprint

As responsible farmers, we care about the welfare and quality of our animals, the environment on land and waterways in which we operate in, the local communities and our passionate people are building a better tomorrow while respecting our planet for future generations to come.
