

3 COLOR PALETTES FOR PROCREATE

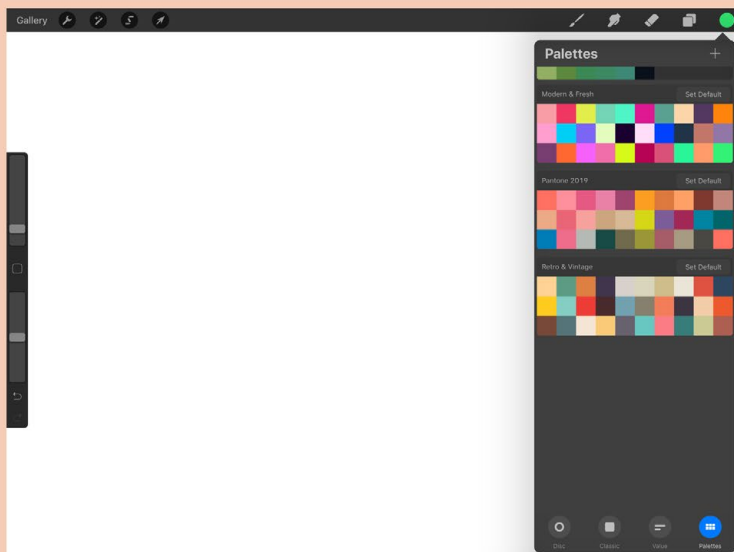

Step 1. Transfer the Files to your iPad

Transfer the files to your iPad using your preferred file transfer service like Dropbox or iCloud (or Airdrop on a Mac). Tap on the '.swatches' file to open it.

Please Note: if you have any issues unzipping or transferring files to your iPad, please see the next pages.

Step 2. Check Procreate Color Panel

Procreate will open and you can find your new color palette by tapping on the color circle icon in the top menu and choose 'Palettes' icon from the bottom of the panel. Your palette will appear at the bottom of the list. Repeat for each palette.

Top Tip: Tap the '*Set Default*' button to the right of the palette set to make those colors the defaults throughout Procreate.

1. Unzip and Install Files (iPad only)

Click the video above for steps on how to **unzip and install Procreate Files** on your iPad (without access to a Computer).

2. Unzip and Install Files (Computer + iPad)

Click the video above for steps on how to **unzip and install Procreate Files** using your Computer and iPad.
