WHAT IS THE INSPIRATION BEHIND YOUR ROOM?

The colours in the Patricia Urquiola Mangas Globo rug. Yellow and teal are wonderful spring colours, but can work all year round if you adjust the accents.

KEY SPRING/SUMMER TRENDS? I think we'll see a lot of orange this year. I'm predicting a lighter, brighter palette.

HOW DO YOU PULL A ROOM TOGETHER? We start by looking at the proportion of all the elements, then bring together the shapes, colours and textures. We always do a finishes board to test our collection of elements, then edit or add the layers to create ambience.

SIGNATURE STYLE? I hope our signature is that each of our projects is different. We work for individuals so we want the work to reflect that.

THE HOT COLOURS FOR SPRING? Murobond Vital (white), Marmalade (orange) and Hello Yello (sunshine yellow).

YOUR LATEST FABULOUS FIND? The wonderful Paola Lenti collection of outdoor furniture in the most amazing colours. A luxury buy, but absolutely inspirational. >
