

Why choose ISN Psychology?

ISN Psychology aims to investigate the basis of character and temperament through the study of psychology, epigenetics, biochemistry, neuroscience, and ecology and to apply these findings to improving the health of individuals and societies. Graduates will learn to apply psychology to address challenges of the 21st century.

Whether you have just finished Year 12, are part way through an Undergraduate degree, or returning to studies as a mature aged student enrolling at ISN Psychology allows you to learn and explore in an environment that is all about intellectual curiosity and freedom of expression.

You will study in a tertiary college that specialises in psychology, where no other faculties compete for funds and resources. With access to organisations like the Florey Institute, you will learn in a highly immersive environment.

The Bachelor of Psychology

The Bachelor of Psychology (Honours) is a four-year course that includes the first three years of a psychology undergraduate degree and one year of honours (4th year).

Students can opt to graduate after third year with a Bachelor of Psychological Science. Students who complete the full four years and graduate with a Bachelor of Psychology (Honours) can consider further postgraduate degrees in psychology (e.g., Masters or PhD).

The Bachelor of Psychology (Honours) is an AQF level 7 (first three years) & 8 (4th year) qualification and is offered face-to-face at ISN Psychology's Heidelberg campus in Melbourne, Victoria. The degree is accredited by the Australian Psychology Accreditation Council (APAC).

Students will explore areas of psychology such as personality, perception, cognition, learning, motivation, evolutionary psychology, abnormal psychology, and developmental psychology.

Students will gain knowledge about human behaviour and how this can be applied to various industries and everyday life. Students also have the option to double major in Psychology and Neuroscience or explore how artificial intelligence will impact on our lives.

ISN Psychology provides a comprehensive understanding of Human Nature like never before.

Course structure

The undergraduate degree consists of 4 years full-time, or the part-time equivalent study.

The course structure is based on eight full-time semesters (each of 12 weeks' duration), with four units taught in each semester. It comprises:

- 24 units that introduce students to the key areas of psychology
- 4 specialisation units in neuroscience

Electives in clinical neuroscience or artificial intelligence.

Tuition fees 2019

Year 1	\$7,550
Year 2	\$7,550
Year 3	\$7,550
Year 4	\$24,000

Entry requirements

YEAR 12 SCHOOL LEAVERS

For year 12 school leavers wishing to study psychology at undergraduate level the entry requirements are as follow:

Completion of VCE Units 3 and 4 and a study score of at least 20 in one of the following: Biology, Chemistry, Geography, Mathematics, Psychology or Physics; Unit 1 and 2 Mathematics is preferred but not essential; and a study score of at least 25 in any English (except EAL) or at least 30 in English (EAL).

This criterion is assessed through submission of VCE certificates which applicants can upload via our online application form.

NON-YEAR 12 APPLICANTS

All applicants must meet the equivalent of the VCE or year 12 school leaver prerequisites. Examples of equivalent prerequisites include:

- Studies completed at university level with a credit (60%+) average or above
- Diploma level studies with an average grade of 60% or above will also be considered.

Non-Year 12 applicants can provide evidence of further studies and work experience as part of their application for entry. Please submit this online.
