

The Global Innovation Fund invests in social innovations that aim to improve the lives and opportunities of millions of people in the developing world.

WHAT WE DO

# Who we are

GIF is a unique hybrid investment fund that supports the piloting, rigorous testing, and scaling of innovations targeted at improving the lives of the poorest people in developing countries. Through our investments, we support a portfolio of innovations that collectively open up opportunities and improve the lives of millions of people across the developing world.

HOW WE DO IT

# Our approach to investing

We believe that the best ideas for solving some of the world’s most critical problems can come from anyone, anywhere. We can fund innovations focused on any developing country, and can invest in any sector relevant to international development where there is a commitment to improving the lives of those living on less than \$5 a day.

OUR APPROACH

# Driving social impact

We support innovators at all stages of development. Through grants, loans (including convertible debt), and equity investments ranging from \$50,000 to \$15 million, we back innovations with the potential for social impact at a large scale, whether they are new business models, policy

practices, technologies, behavioural insights, or new ways of delivering products and services that benefit the poor in developing countries.

**Pilot**

We provide seed capital to support the startup and field-testing of innovations.

**Test and Transition**

We support innovations that have already demonstrated success at a small scale.

**Scaling**

We support the expansion of innovations that have already demonstrated a strong track record of social impact and effectiveness.
