

# School Evangelism

“I tell you, open your eyes and look at the fields! They are ripe for harvest.”  
John 4:35 (NIV)

In Greater Sydney Conference we have six Adventist schools that make up our education system. A high percentage of those who attend our Adventist schools are from non-Adventist homes.

Jesus’ words in John 4:35 remind us to open our eyes to the opportunity that is around us to spread the gospel.

Our Adventist schools are a field waiting to be harvested, and we are just desperate for resources to put behind the harvest. What better place to share Jesus than with the many non-Christian parents that are happy to have their children learn maths, English, science and Bible in our schools, as well as hearing the gospel message on a daily basis?

Today’s offering will help to provide resources and opportunities for outreach in our schools through friendship evangelism, parenting workshops, *Beyond* DVDs, relationship building of parent networks and many other opportunities.

## Appeal

School evangelism through your offering will grow and nurture parents and students into God’s kingdom.

## Prayer

Dear God, thank You for the way You are working evangelistically in our schools. May Adventist education continue to be a beacon in our communities. Amen.
