It was at a Church planting conference in the US that the beauty of the Adventist administrative system was really made clear. One of the workshops talked about funding a Church Plant and the many challenges that arise. The workshop host upheld that Adventist Church as a unique system that had great capacity when it came to the distribution of funds for mission. They concluded that with our administrative structure we had the potential and power, by the Holy Spirit and faithful membership to have exponential growth.

The system adopted by the Adventist Church was established upon biblical principles, fostering unity and equity. No one individual or interest group is owner or controls all the funds. Local church representatives elect leaders for limited terms, and leaders are paid on the basis of a common salary scale. The church is thriving in 212 out of the 235 countries and areas recognized by the UN, because instead of each one doing what is right in their own eyes, 21 million members contribute to the same “pot” with tithes and offerings. United, they are stronger, are able to do more, and go farther! We are better together!
