## TRIPOD LEANER

A bar leaner is designed to create an easy environment for conversation and the Tripod Leaner is no exception. This tripod design is remarkable in terms of style and practicality, allowing access from all sides. It is the ideal sit or stand leaner for bars and restaurants wanting something with a bit of presence and attitude.

It's the bar leaner that goes out of its way to fit with you. Make it meet your style with your choice of timber stain colour and steel powder coat colour to make a real statement. It's also available built for outdoors, with a galvanised steel foot ring and slatted Iroko timber top.
