

HARROWS

VILLA ARMCHAIR

The Villa Armchair is inspired by the natural cane seating typically found on Parisian terraces. By using a steel rod shell and mesh frame, the Villa achieves the same visual effect while increasing the overall strength and structural rigidity.

The Villa Armchair is light and portable, making it easy to move and manage. As well as being stackable, it can be powder coated in any colour of your choice, making it the perfect seating option for your indoor or outdoor space.
