MADE FOR SOCIAL SPACES

HARROWS

MADE FOR SOCIAL SPACES

Introducing: Hedgerow.

Control and create zones within your space by using an attractive and colourful acoustic divider. Made from layers of felt leaves arranged in smooth ombré colourways, use the Hedgerow to bring the outdoors in. Inspired by nature and the change of seasons, these dividers are a creative way to build walls or temporary spaces.

Made from:	Fibreglass rods with felt leaves. Ash veneer base.
Made for:	Indoor use.
Guaranteed:	5 year commercial warranty.
Finished in:	Base stained in 11 colours. Felt leaves available in three colourways.
Options:	Integrated lighting in base.

Timber Stain Colour Options.

Leaf Colourways.

Autex Vertiface felt., Colours are indicative only.

Making flexibility easy.

Designed by the Harrows team. the Hedgerow is available in red, green or blue colourways. The timber base can be stained in any colour, and lighting can be integrated on request.

HARROWS

MADE FOR SOCIAL SPACES

HARROWS

The back story.

Harrows is a family business run by three brothers, Mark, Tim and Rich Suckling who all learnt the craft of furniture making from an early age.

The family was initially focused on manufacturing domestic furniture, until they acquired a small import business and reselling business in 2006 servicing the hospitality sector. It was quickly apparent that there was a large appetite for fresh, different and exciting furniture options in this area, which wasn't being serviced.

Fast forward to today and Harrows has three generations under one roof, with a team upwards of 35 across sales, marketing, customer service, operations and production, with specialist departments in-house for laminating and machining, fitting and assembly, upholstery, polishing and painting. We have expanded our personalised approach and product designs to service all social spaces, not just hospitality.

We believe that good design should be both functional and aesthetically pleasing, but most importantly, accessible to all. To put it simply, it needs to be possible to execute in an efficient and commercially sustainable way. It's an ability to interpret a creative vision and translate it to a practical solution while minimising compromise that sets Harrows apart.
