

Technical Project Manager

Play a pivotal role in our project delivery as our new Technical Project Manager. We're looking for someone to engage and execute across all project stages.

As a furniture design and manufacture company for social spaces, our Technical Project Manager will be based in Timaru and oversee and assist with our more complex projects from estimating and detailing through to installation and close out.

Role Highlights:

- Showcase your ability to engage and execute.
- Pivotal role where you are responsible for the outcome.
- Oversee complex projects, liaising with clients and attending site visits.

At Harrows, we specialise in crafting exceptional furniture. We have a focus on design and product development, manufacturing furniture for social spaces like cafes, restaurants, airports, office breakout and collaborative spaces, all over New Zealand.

Responsibilities include:

- Oversee and assist in project estimating
- Support sales team with project solutions
- Oversee and assist in project Detailing
- Undertake site visits and site measures
- Liaise with Designers and Architects to meet client expectations
- Project Management
- Manage project installation
- Manage project close out and issue resolution

The successful applicant will have:

- Project management experience in Joinery and or shopfitting
- Estimating and Detailing experience
- Excellent communication and interpersonal skills
- A friendly personality and positive attitude
- Excellent planning and organisational skills
- Flexible 'hands on' approach
- Good understanding of IT systems
- Working knowledge of CAD and CNC programming an advantage.

If you have an interest in this role and possess the attributes mentioned above, then do not hesitate - remuneration is negotiable and we offer excellent working conditions where you can be part of a progressive and positive team.

Please apply with a copy of your CV and a cover letter to laura@solvehr.co.nz. Any enquiries please call Laura on 027 562 3048.
