MADE FOR SOCIAL SPACES

Eex Table Base.

Designed By

Simone Viola

Customisable Elements

Colour

The Eex Table Base is purposely designed for the outdoors. A soft, rounded shape that lets water drops and dew slip away, free of any grooves and unnecessary decorations, ideal for resisting any environment. The simplicity of its iconic shape allows for a perfect combination with any outdoor chair, creating ideal solutions both for indoor and outdoor applications.

Designed by Simone Viola, this Italian base is made from metal and finished in either a crisp black or white. With splayed legs providing additional stability, pair with any top from our range.
