## Diphthongs

A diphthong is formed by combining two vowel sounds in one syllable. This creates a sound change within the syllable.

### Diphthongs

<b>Iə</b> ear career here	<b>eɪ</b> train wait plane	
<b>ʊə</b> tourist your sure	<b>ɔɪ</b> boy oil point	<b>əʊ</b> coat show note
<b>eə</b> hair there careful	<b>aɪ</b> my fine high	<b>aʊ</b> cow house our
